tani s dissertation is the most stunningly original and intelligent i have encountered in 25years of teaching wrote the late novelist john gardner tani s argument says that the mysterious story as written by hammett and others and touted by the french existentialists led to a new kind of novel and the old style mystery as written by for example agatha christie seemed a literary dead end a conservative if not reactionary game in recent years tani shows the seeming dead end has led to the most important literary movement

now visible the ironic intellectual fiction of people ranging from borges and barth to calvino and he proves that the spearhead of this movement is italian fiction as influenced by american mystery fiction at first glance the argument seems outrageous the brilliance of tani's thesis besides the original outrageous idea is that he solidly and systematically makes his case

offers reviews of more than three thousand albums of film television and stage music
