a provocative and eye opening study of the essential role the us military and the central intelligence agency played in the advancement of communication studies during the cold war era now with a new introduction by robert w mcchesney and a new preface by the author since the mid twentieth century the great advances in our knowledge about the most effective methods of mass communication and

persuasion have been visible in a wide range of professional fields including journalism marketing public relations interrogation and public opinion studies however the birth of the modern science of mass communication had surprising and somewhat troubling midwives the military and covert intelligence arms of the us government in this fascinating study author christopher simpson uses long classified documents from the pentagon the cia and other national security agencies to demonstrate how this seemingly benign social science grew directly out of secret government funded research into psychological warfare it reveals that many of the most respected pioneers in the field of communication science were knowingly complicit in america s cold war efforts regardless of their personal politics or individual moralities and that their findings on mass communication were eventually employed for the purposes of propaganda subversion intimidation and counterinsurgency an important thought provoking work science of coercion shines a blazing light into a hitherto remote and shadowy corner of cold war history

please note this is a companion version not the original book sample book insights 1 psychological warfare is a small but interesting field in the social sciences it underlies most college and graduate level training for print and broadcast journalists public relations and advertising personnel and the related craftspeople who might be called the ideological workers of contemporary american society 2 the field of communication studies grew out of psychological warfare programs and it is difficult to separate the two the role of government money in the development of communication studies has been largely forgotten or suppressed 3 the links between federal research sponsorship and the evolution of academic preconceptions about communication and mass media are difficult to trace however it is clear that the focus on psychological warfare projects helped shape the broader structure of assumptions and received knowledge in the field 4 psychological warfare is also used to extend the influence of the us government beyond its direct control the cia s radio broadcasting into eastern europe became one of the cheapest safest and most effective tools of foreign policy

provides students and researchers with a comprehensive overview of contemporary communication theory entries address topics related not only to paradigms traditions and schools but also metatheory methodology inquiry and applications and contexts

communication language and the crisis of hegemony in south africa keyan tomaselli eric louw metaphor and the media nancy l nelson cultural stories in the rhetoric of u s involvement in vietnam catherine ann collins the third crisis in journalism a political linguistics perspective carl r bybee japanese oral narrative
