this book is a fascinating scientific inquiry into the question of how humans came to the existence that we know today the goal for this book is to serve as a handbook of comparative mythology a large portion of text is dedicated to retelling condensed versions of the ancient myths of the world so that a beginning scholar may attain a worldly knowledge of cultural myths that they can compare independently in addition to this large body of mythological evidence a matrix method of comparable characters is presented such that a common thread of history emerges by comparing outlines of stories from around the world the basic storyline of history includes parts from all religions the history of the world as we currently understand it will dramatically change by three discoveries presented in this book first is evidence and

mathematical proof that ancient earth was struck by a portion of halley s comet second is discovery of an ancient map of the world encrypted into the body of an ancient fresco third is discovery of a matrix method giving mathematical probability to characters often thought purely mythical this book promises to offer the greatest paradigm shift in thinking on human history since darwin and in doing so it presents a return to many of the greatest arts and literature stories the world has ever known in simple real life stories what the matrix method means is that the mythological characters of father heaven and mother earth show up in most cultural myths as the first set of parents to the world sea and sun and moon are of the second generation thunder and underworld are of the third generation matrix comparison leads to the conclusion that a universal pantheon of founders once existed where it gets really interesting is the point where recognizable historic figures relate to the same entities as mythical characters zeus is the same person as ramses 1 hera is the same person as nefertiti and sara and ishtar this book will be of interest to artists and scientists as well as historians religious scholars and storytellers
