this accessible and stimulating account of world history since 1945 provides a framework for making sense of the political and social developments of this period the underlying theme of the book is the tension between the world conceived as a unity and the world conceived as a diversity from this perspective the author discusses the impulse towards globalization in the aftermath of the second world war the divisions inherent in the cord war and the shifting allegiances and conflicts in the decades which followed he ends with an assessment of our position with regard to world unity and disunity as the millennium approaches

the complete history of global change from 1945 to the present day the world since 1945 has

witnessed fundamental changes notably the increasing influence of the west particularly the usa in a variety of spheres the emergence and collapse of the ussr the end of colonial empire in asia and africa and the escalation of wars and other conflicts in the third world in this incisive survey t e vadney examines the key events without ever neglecting the underlying trends he explores therapid changes in the middle east the end of apartheid in south africa and the aims of american foreign policy he concludes with a new epilogue in which he examines the direction of post 1945 history as the world enters the twenty first century

a monumental and accessible global history of the second half of the twentieth century from the end of world war two to the terrorist attack on the twin towers offering readers the most complete portrait of the age available

europe since 1945 is an exciting new survey of the history of europe since the end of world war two in the second half of the twentieth century europe has known a period of peace and stability unprecedented in its history and virtually unparalleled in the rest of the world europe explains the reasons for this state of affairs thought provoking and wide ranging this book discusses political economic social and cultural change in modern europe covering both western and eastern europe comprehensively and featuring extensive analysis of the 1990s this book includes examination of the cold war war at the edges northern ireland and yugoslavia the european union the issues of nationalism the end of the dictatorships economic prosperity the eec and the euro the break up of the european empires and the consequences

the twentieth century was one of constant upheaval across europe the continent saw wars revolutions and the collapse of empires and a range of leading figures from stolypin and stalin to chirac schroder and putin this book provides a detailed yet wide ranging guide to the turbulent events of twentieth century europe covering the whole period from tsarist russia and imperial germany to the balkan wars of the 1990 s and the final birth of the euro in 2002 it provides a convenient user friendly compendium of key fact and figures for the whole of europe from the atlantic to the urals

this text provides an unparalleled social political and cultural history of germany from the end of the second world war to the contemporary moment as well as carefully balancing the histories of east and west germany peter c caldwell and karrin hanshew convincingly make the case for analysing the berlin republic as a serious and distinct historical period in its own right offering international context throughout caldwell and hanshew navigate students through the catastrophe of war genocide and the country s division to the new challenges facing the reunified germany in the 21st century there are key primary source excerpts integrated throughout the text as well as 50 images 10 maps several charts and tables and a detailed bibliography to further aid study the book is also supported by an updated online instructor s guide which focuses on how to use the book in teaching where to find the best collections of documents and images for teaching and models for the many different kinds of courses that might be taught using the book new content and features for the 2nd edition include a chapter on recent german history and expanded coverage of the post 1990 era enhanced material on

topics including far right sympathies through the decades and west german foreign policy beyond europe additional images and maps an updated introduction online instructor s guide conclusion and historiographical updates throughout

the life and chemical sciences are in the midst of a period of rapid and revolutionary transformation that will undoubtedly bring societal benefits but also have potentially malign applications notably in the development of chemical weapons such concerns are exacerbated by the unstable international security environment and the changing nature of armed conflict which could fuel a desire by certain states to retain and use existing chemical weapons as well as increase state interest in creating new weapons whilst a broader range of actors may seek to employ diverse toxic chemicals as improvised weapons stark indications of the multi faceted dangers we face can be seen in the chemical weapons attacks against civilians and combatants in iraq and syria and also in more targeted chemical assassination operations in malaysia and the uk using a multi disciplinary approach and drawing upon an international group of experts this book analyses current and likely near future advances in relevant science and technology assessing the risks of their misuse the book examines the current capabilities limitations and failures of the existing international arms control and disarmament architecture notably the chemical weapons convention in preventing the development and use of chemical weapons through the employment of a novel holistic arms control methodology the authors also look beyond the bounds of such treaties to explore the full range of international law international agreements and regulatory mechanisms potentially applicable to weapons employing toxic chemical agents in order to develop recommendations for more effective routes to combat their proliferation and misuse a particular emphasis is given to the roles that chemical and life scientists health professionals and wider informed activist civil society can play in protecting the prohibition against poison and chemical weapons and in working with states to build effective and responsive measures to ensure that the rapid scientific and technological advances are safeguarded from hostile use and are instead employed for the benefit of us all

presents recent research on the recasting of european welfare states resulting from the european forum on welfare states held at the european university institute in florence during 1998 99 offers comparative analysis of topical issues and in depth studies of changes in the major european countries analyzes the impact of retrenchment and reform and adds to ongoing debates about policy convergence trade offs of innovation cost savings and equity ferrera teaches public policy and administration at the university of pavia and directs the center for comparative political research at bocconi university italy rhodes teaches european public policy at the european university institute italy distributed by isbs annotation copyrighted by book news inc portland or

a masterly synthesis of the history of the contemporary world the world since 1945 offers the ideal introduction to the events of the period between the end of the second world war and the present day p m h bell and mark gilbert balance a clear narrative with in depth analysis to guide the reader through the aftermath of the second world war the cold war decolonization détente and the arab israeli conflict up to the on going ethnic strife and political instability of the 21st century the new

edition has been thoroughly revised to fully reflect developments in the history and historiography of the post war world and features five new chapters on the post cold war world covering topics including the rise and fall of american hegemony the decline of europe the rise of asia political islam as a global force the role of human rights the world since 1945 challenges us to better understand what happened and why in the post war period and shows the ways in which the past continues to exercise a profound influence on the present it is essential reading for any student of contemporary history

it has been fifty years since japan admitted defeat and accepted the terms of the potsdam declaration following world war ii at the time japan was in shambles its imperial dream shattered and its people reduced to scrounging for sufficient food to stay alive yet over the past half century japan has remade itself and emerged as one of the leading economic powers in the world how did japan achieve this success and what has this remarkable rebirth meant for the japanese people in eastern phoenix mikiso hane closely examines historical factors that have contributed to japan s postwar development politically economically socially and culturally beginning with the occupation by u s forces under gen douglas macarthur hane shows how american reforms and initiatives combined with the political actions of subsequent japanese leaders to create a country able to forge ahead economically while retaining many traditional aspects of prewar japanese society in addition to presenting a narrative overview of important events since 1945 eastern phoenix provides insight into the evolution of japan s foreign relations internal effects of prosperity on japanese society and problems that remain despite extraordinary progress the book critically examines such media hot topics as education environmental degradation organized crime racial and class discrimination the japanese work ethic and the role of women in society to provide useful context for student readers hane frequently punctuates his discussion by contrasting japanese statistics with those of the united states the book also excels in examining how artists and writers have grappled with japan s rapidly evolving contemporary history and hane points the reader toward books and films that can shed additional light on japanese perceptions of the past fifty years

the world since 1945 traces the major political economic and ideological patterns that have evolved in the global arena from the end of world war ii to the present day the sixth edition of this widely acclaimed textbook thoroughly updated throughout continues to provide not only the background that students need in order to understand current international relations but also new material on politics around the world among the current topics covered in this edition are the expansion of the european union the impasse in palestinian israeli relations the rightward movement in russian politics and the impact of the expanding chinese economy on trade relations military power and the environment a new chapter is devoted to the global consequences of the september 11 terrorist attacks beautifully written and student friendly the world since 1945 has made its place as the text of choice in scores of world history and introductory ir courses wayne c mcwilliams and harry piotrowski are emeritus professors in the department of history at towson university contents introduction the origins of the cold war the end of world war ii and the dawn of the nuclear age the cold war institutionalized the cold war in asia a change of venue confrontation and coexistence

nationalism and the end of colonialism decolonization in asia decolonization in africa the middle east the arab israeli conflict the shifting sands of global power the communist world after stalin the war in indochina detente and the end of bipolarity the third world problems of economic development in the third world africa latin america the people s republic of china and taiwan the indian subcontinent and southeast asia transition to a new era japan korea and east asian economic development the globalization of the economy the soviet union from perestroika to the retreat from empire the nuclear arms race september 11 and its consequences epilogue the end of the post world war ii era

the author of such classic works as the republican roosevelt v was for victory and years of discord john morton blum is one of a small group of intellectuals who for more than a quarter of a century dominated the writing of american political history writing now of his own career blum provides a behind the scenes look at ivy league education and political power from the 1940s to the 1980s blum insightfully recounts a long and distinguished journey that began at phillips academy where he first realized he could make a career of teaching and writing history he tells how young men were socialized to the values of the northeastern establishment in those years before world war ii and how as a non practicing jew he learned to overcome bigotry both at andover and at harvard which then had no jewish professors in 1957 blum joined the faculty of yale university s history department widely regarded as the nation s best where he became both influential and popular and where his students included one future u s president as well as others who aspired to the office he reveals much about the inner workings of ivy league education and tells of controversies over the vietnam war and the black panthers his role in eugene mccarthy s presidential campaign and how he searched for common ground between reactionary faculty and radical students more than a recounting of a singular life blum s story explains how political history was researched and written during the second half of the twentieth century describing how the discipline evolved gained ascendancy and was challenged as historical fashions changed it also offers revealing glimpses of such prominent academics as kingman brewster arthur schlesinger jr c vann woodward and william sloan coffin over a distinguished career blum witnessed considerable change in elite educational institutions where minorities and women were grossly underrepresented when he first entered academia in a memoir brimming with insight and laced with humor he looks back at the academy not a refuge from reality but an alternative reality as he reflects upon his intellectual journey and his contributions to the study and writing of twentieth century american history

examines the social cultural and political underpinnings of japan s postwar and post industrial trajectories

publisher description
