in a new model of the universe written in 1914 and now published for the first time in french p d ouspensky describes his own quest for a form of truth concerning questions as fundamental as the place of man in the universe the unknown the invisible world starting from the idea always that true civilization only exists in esotericism and that modern western civilization suffers from a profound barbarism due to the absence of esoteric thought calling on christianity judaism eastern philosophies the symbolism of the tarot experimental mysticism the study of dreams hypnotism yoga but also the sciences and in particular ancient physics and modern the author attempts to answer the following questions what form does the world have is the world a chaos or a system does the universe exist by accident or was it created according to a plan a new model of the universe responds to a growing need in late 20th century man to question his origins and the meaning of his existence by having recourse to ancient beliefs and traditions

secrecy and esoteric writing in kabbalistic literature examines the strategies of esoteric writing that kabbalists have used to conceal secrets in their writings such that casual readers will only understand the surface meaning of their texts while those with greater insight will grasp the internal meaning in addition to a broad description of esoteric writing throughout the long literary history of kabbalah this work analyzes kabbalistic secrecy in light of contemporary theories of secrecy it also presents case studies of esoteric writing in the work of four of the first kabbalistic authors abraham ben david isaac the blind ezra ben solomon and asher ben david and thereby helps recast our understanding of the earliest stages of kabbalistic literary history the book will interest scholars in jewish mysticism and jewish philosophy as well as those working in medieval jewish history throughout jonathan v dauber has endeavored to write an accessible work that does not require extensive prior knowledge of kabbalistic thought accordingly it finds points of contact between scholars of various religious traditions

psychedelic experience presents a philosophical account of psychedelic experience a central premise of the book is that such experiences are mind revealing experiences and that they can be induced by means other than psychedelics in particular the book argues that psychedelic experiences can also be had as the result of meditation aiden lyon presents a unified conceptual framework for thinking about the different kinds of psychedelic experiences one may have as a result of psychedelics meditation and their combination this framework is then used to shed new light on various commonalities between psychedelics and meditation such as the ability to promote long lasting increases in mindfulness and their reputation for inducing mystical experiences

finally the book uses these new philosophical resources to flip things around and shine the light back on philosophy itself arguing that psychedelic experiences can be used as tools for doing philosophy the result is a new approach to philosophy or the revival of an ancient one which integrates traditional analytic methods with a range of psychedelic techniques
