appraisal is the way language users express their attitude towards things people behaviour or ideas in the last few decades significant achievements have been made in appraisal theory research yet little attention has been paid to appraisal in scientific texts especially in relation to the contrast to how it is applied in english and chinese this title examines the similarities and differences of appraisal systems in english and chinese scientific research articles using a self constructed corpus of scientific research articles the authors make cross linguistic comparisons in terms of the quantity and distribution patterns of categories of appraisals they creatively categorise articles into theoretical scientific research articles and applied studies and discover that for both languages each genre can have its own favorite mode of distribution for the realization of appraisal systems in addition this research helps appraisal theory systems to become more explicit specific and more applicable for the analysis of scientific research articles students and scholars of applied linguistics comparative linguistics and corpus linguistics will find this an essential reference

this book examines turn taking in english and japanese conversations and political news interviews to investigate the relationship between language and interaction
