written by a boomer mother and a gen x daughter this perceptive book explores the deep dissatisfaction that professional gen xers are experiencing at work especially women who are expected to enter the equal opportunity workplace their feminist mothers fought for

go inside the research to see the global consequences of unethical banking the next revolution in our credit driven economy the advent of financial technology integrates market theory and practice to help investors identify growth opportunities and to help regulators create a sustainable economic environment author paul schulte former economic analyst with the national security council draws upon his own decade spanning research to demonstrate how unethical banking practices provide the brute force that drives political and economic crises worldwide by unbundling how credit markets work this authoritative guide provides deep insight into crisis avoidance and detection successful investment climates and the groundwork that must be in place for policy makers to build a sound basis for economic growth clear succinct case studies provide examples of policy and its effects on

economic stability giving you a stronger understanding of the network of forces that determine how loan deposit ratios behave around the world countries that lend more than they save consistently get into trouble with catastrophic consequences for the rich and middle class as well as the politicians this book shows how credit excesses bring about price collapse in stocks currencies and real estate and provides direction for change in the context of global economics dive deep into the mechanisms underlying the credit markets learn how unregulated borrowing leads to socioeconomic crises examine real world policy options through global case studies discover how credit rises are best detected and avoided an economic climate in which even the smallest hiccup can have long lasting consequences should be the ideal impetus for a close scrutiny of global banking practices and economic policy the next revolution in our credit driven economy takes you behind the scenes for a new perspective and a more informed look at where the world needs to begin changing the second half of the book will take a look at the revolution driving financial technology companies in silicon valley and giants like alibaba are challenging the landscape for banking this has profound implications for policy makers banks and for a new class of entrepreneurs who are developing software which is taking away market share from bank and challenging decades old financial empires the book will explore the reasons why many global banks remain flat footed it will go into detail about the new companies and software that are moving in the far east and with innovations in securities bonds foreign exchange retail lending and sme lending lastly the book will look at the strategy behind alibaba and how it will challenge many companies from a powerful base inside china

throughout his life prophetic american philosopher murray bookchin created social ecology as a comprehensive social program for the challenges of our present era through tireless teaching speaking organizing and writing bookchin presented a humanist vision of ecology based on community direct democracy and the better promises of the enlightenment showing how we could transform our society into one that is free and egalitarian enlightenment and ecology is an international collection of commemorative essays by scholars and activists who have each incorporated the ideas of social ecology into their own work this book also examines how the kurdish freedom movement is using the bookchin s utopian ideas in a time of urgent need for radical change these essays provide both precious historical lessons and a transformative road map

today s critic is beginning to seem almost as essential to the development indeed the identification of art as the artist himself the purpose of this volume is to bring together some of the best recent critical essays on the new art in the united states most of these articles date from after 1960 and were originally published in periodicals and museum catalogues but in keeping with the new role of the critic as interpreter the pieces included in this anthology do more than simply describe or even define their subject their authors are actively and consciously engaged in the preparation of a new aesthetic this is a unique collection that will be indispensable to all who wish to understand more about the new art in america

from athens to new york recent mass movements around the world have challenged austerity and authoritarianism with expressions of real democracy for more than forty years murray bookchin developed these democratic aspirations into a new left politics based on popular assemblies influencing a wide range of political thinkers and social movements with a foreword by the

best selling author of the dispossessed ursula k le guin the next revolution brings together bookchin's essays on freedom and direct democracy for the first time offering a bold political vision that can move us from protest to social transformation a pioneering voice in the ecology and anarchist movements he is the author of the ecology of freedom and post scarcity anarchism among many other books

moving beyond previous scholarship he gives us a locke as much concerned with the effective functioning of government as with the roots of its moral legitimacy book jacket
