drawing on international case studies the contributors extrapolate a systematization of the ways in which siblingship is conceived on the basis of shared parentage shared childhoods and reciprocal care they explore what makes these relations worth maintaining and how they contribute to community processes and to material and emotional survival

take a close look at sibling relationships particularly how siblings navigate power control and influence and how the relationship affects the development of the individuals involved while such relationships are both complementary and reciprocal they transforms rather dramatically from hierarchical in early and middle childhood to egalitarian by early adulthood this issue to examines the processes and consequences of such dynamic power shifts for our broader understanding of how these relationship dynamics change and develop throughout the life course how such dynamics may be similar or different cross culturally and how they influence the quality of the sibling relationship as well as the well being of youth to do so the authors present research from each developmental period from early childhood through young adulthood as well as cross cultural research in order to further understanding of the developmental and contextual themes that allow for drawing broader conclusions this is the 156th volume in this jossey bass series new directions for child and adolescent development its mission is to provide scientific and scholarly presentations on cutting edge issues and concepts in this subject area each volume focuses on a specific new direction or research topic and is edited by experts from that field

psychologists researchers teachers and students need complete and comprehensive information in the fields of psychology and behavioral science the corsini encyclopedia of psychology volume four has been the reference of choice for almost three decades this indispensable resource is updated and expanded to include

much new material it uniquely and effectively blends psychology and behavioral science the fourth edition features over 1 200 entries complete coverage of dsm disorders and a bibliography of over 10 000 citations readers will benefit from up to date and authoritative coverage of every major area of psychology

addressing the unique problems associated with raising two or more children this helpful parenting handbook explores the various aspects and dynamics of sibling relationships addressing such topics as how to handle age differences among siblings and how to eliminate competition and jealousy

this book briefly outlines psychological perspectives of the values attitudes and behaviour of parents in influencing a child s personality the volume discusses important factors and family surroundings that influence a growing child s development and various techniques that parents and teachers may use to inculcate children s growth and well being various discipline techniques that parents can use with the child and ways in which they can enhance their child s creativity and achievement levels are explained it also discusses the causes signs and types of learning disabilities such as dyslexia dysgraphia dyscalculia and developmental coordination disorder dyspraxia and behaviour disorders like anxiety disorders conduct disorders oppositional defiant disorder attention deficit hyperactivity disorder adhd aggressive behaviour in children and the speech disorder stuttering the volume gives an elaborate understanding of the diverse changes conflicts emotional turmoil and identity crises that adolescent children go through and how parents and teachers can help them to handle this transitional stage this book will be of interest to psychologists parents students and teachers of psychology and scholars of child development as well as professionals involved in working with children and adolescents such as teachers counsellors doctors nurses and social workers

in this poignant book lisa cherry brings together a collection of candid and personal reflections on the care system in the uk offering alternative ways of thinking about the care experience supporting better ways of working and providing justification for a trauma informed lens to be applied to all forms of work with those in care through personal insights and reflections the book brings often unheard stories vividly to life beginning with the author s own these are stories about love and pain hurt and isolation the depth of lived experience that makes up a life how we live our lives through our relationships with others and where we feel we fit in in this thoughtfully compiled third edition original contributors look back on their own reflections from the lives that they live now new stories bring new perspectives and discussion points provide the opportunity to consider the realities of the care experience as well as life beyond whilst each story is unique shared themes reveal the

truth of the care system and coming at a time where there is a real opportunity for change the narratives in this book are ultimately stories of hope and connection this is crucial reading for policy makers those working in social work education and adoption as well as care experienced adults

between each birth a family reshapes so that each child is born into a different family a different number of siblings a different level of parental experience a different economic stage parents must recognize each child s differing background in order to fully understand their differing needs and behaviors
