apart from mifid the alternative investment fund managers directive aifmd may be the most
important european asset management regulation of the early twenty first century in this in depth
analytical and critical discussion of the content and system of the directive thirty eight contributing
authors academics lawyers consultants fund supervisors and fund industry experts examine the
aifmd from every angle they cover structure regulatory history scope appointment and
authorization of the manager the requirements for depositaries and prime brokers rules on

delegation reporting requirements transitional provisions and the objectives stipulated in the recitals and other official documents the challenging implications and contexts they examine include the following connection with systemic risk and the financial crisis nexus with insurance for negligent conduct connection with corporate governance doctrine risk management transparency the cross border dimension liability for lost assets impact on alternative investment strategies and the nexus with the european regulation on long term investment funds eltifr nine country reports representing most of europe s financial centres and fund markets add a national perspective to the discussion of the european regulation these chapters deal with the potential interactions among the aifmd and the relevant laws and regulations of austria france germany italy luxembourg liechtenstein the netherlands malta and the united kingdom the second edition of the book continues to deliver not only the much needed discussion of the inconsistencies and difficulties when applying the directive but also provides guidance and potential solutions to the problems it raises the second edition considers all new developments in the field of alternative investment funds their managers depositaries and prime brokers including but not limited to statements by the european securities and markets authority esma and national competent authorities on the interpretation of the aifmd as well as new european regulation in particular the priips regulation the eltif regulation the regulation on european venture capital funds euvecar the regulation on european social entrepreneurship funds eusefr mifid ii and ucits v the book will be warmly welcomed by investors and their counsel fund managers depositaries asset managers administrators as well as regulators and academics in the field

understanding information technology series is written as per the requirements of the icse and cbse schools imparting knowledge in the field of information and technology the series contains a number of special features the topics are explained in lucid language in a systematic way the series provides basic and comprehensive knowledge of the subject as per today s needs the presentation of the books makes the subject interesting for the students the series also contains a high level language at all levels to develop the fundamental concept of programming techniques

understanding pisa s attractiveness examines how policy makers and the media interpret the results of pisa league leaders losers and slippers in ways that suit their own reform agendas as a result a myriad of explanations exist as to why an educational system is high or low performing the chapters written by leading scholars from australia austria denmark finland germany norway singapore south korea spain sweden taiwan the uk and the usa provide a fascinating account of why results from pisa and other international large scale assessments are interpreted and translated differently in the various countries the analyses in this book bring to light the wide array of idiosyncratic projections into these international tests in some countries these tests are also used to scandalise one s own educational system and to generate quasi external reform pressure compiled by two leading scholars in comparative education florian waldow and gita steiner khamsi this book offers a truly global perspective on the uses and abuses of pisa and will be of great interest to students and academics working in educational policy comparative education and political science and those working on large scale data sets

digital or virtual currencies pose significant challenges for government financial and legal institutions because of their non physical nature and their relative anonymity to physical currency these attributes make this form of exchange extremely volatile and at the same time attractive to criminals many countries around the world have therefore issued warnings against the use of digital currencies and have enacted laws to regulate and in some cases restrict their use among members under their respective jurisdictions digital currency an international legal and regulatory compliance guide serves as a primer for both general and specialized readers as well as business law and e commerce teachers and students to recognize and understand the extensive network of laws and regulations already in place around the world which have a profound impact on the creation distribution and use of digital currency and blockchain technology the book is also a compliance guide assisting legal practitioners in the fields of business law and technology to develop implement manage and maintain strategies policies practices and procedures to ensure that their activities involving digital currency and blockchain technology comply with a complex set of legal requirements in several jurisdictions the book addresses both the complex set of existing laws that have a profound impact on digital currencies and blockchain technology and the emerging new legal requirements directed specifically towards digital currency readers will understand the broad implications of laws and regulations on digital currency and blockchain development and its use and will also be equipped with the knowledge to incorporate these effectively into their professional and personal endeavors this entails maximizing the value of digital currency and blockchain technology while also minimizing their risk of adverse legal consequences additionally policymakers seeking to enforce current legislations or wishing to draft appropriate new regulations in the digital currency and blockchain economy will also benefit from the information provided in this book

from the forward by michael lesk google has now developed services far beyond text search google software will translate languages and support collaborative writing the chapters in this book look at many google services from music to finance and describe how they can be used by students and other library users going beyond information resources there are now successful collaboration services available from google and others you can make conference calls with video and shared screens using google hangouts writing documents with small numbers of colleagues often involved delays while each author in sequence took over the writing and made edits today google docs enables multiple people to edit the same document at once an ingenious use of color lets each participant watch in real time as the other participants edit and keeps track of who is doing what if the goal is to create a website rather than to write a report google sites is now one of the most popular platforms google is also involved in social networking with services such as google other tools view social developments over time and space the google trends service for example will show you when and where people are searching for topics not surprisingly searches for swimwear peak in june and searches for snowmobile peak in january the complete guide to using google in libraries volume 2 research user applications and networking has 30 chapters divided into four parts research user applications networking searching the contributors are practitioners who use the services they write about and they provide how to advice that will help

public school academic and special librarians library consultants lis faculty and students and technology professionals

it is not hyperbole to suggest that the foundations of post cold war security in europe have been badly damaged by the conflict in ukraine since 2014 russia s annexation of crimea and intervention in eastern ukraine appear to have created a simmering conflict which may take years to resolve and have profound consequences for the european security environment this volume explores the various political economic and social aspects of these profound changes and their wider significance for europe bringing together contributions by scholars from across the continent and in various disciplinary fields to offer an authoritative in depth examination of the complex causes of the ukraine crisis and the consequences for ukrainian statehood ukraine s relations with russia russia s own domestic governance and russia s relations with europe this book was originally published as a special issue of europe asia studies

the abundance of data and the rise of new quantitative and statistical techniques have created a promising area data analytics this combination of a culture of data driven decision making and techniques to include domain knowledge allows organizations to exploit big data analytics in their evaluation and decision processes also in education and learning big data analytics is being used to enhance the learning process to evaluate efficiency to improve feedback and to enrich the learning experience as every step a student takes in the online world can be traced analyzed and used there are plenty of opportunities to improve the learning process of students first data analytics techniques can be used to enhance the student s learning process by providing real time feedback or by enriching the learning experience second data analytics can be used to support the instructor or teacher using data analytics the instructor can better trace and take targeted actions to improve the learning process of the student third there are possibilities in using data analytics to measure the performance of instructors finally for policy makers it is often unclear how schools use their available resources to produce outcomes by combining structured and unstructured data from various sources data analytics might provide a solution for governments that aim to monitor the performance of schools more closely data analytics in education should not be the domain of a single discipline economists should discuss the possibilities issues and normative questions with a

multidisciplinary team of pedagogists philosophers computer scientists and sociologists by bringing together various disciplines a more comprehensive answer can be formulated to the challenges ahead this book starts this discussion by highlighting some economic perspectives on the use of data analytics in education the book begins a rich multidisciplinary discussion that may make data analytics in education seem as natural as a teacher in front of a classroom

leveraging socio emotional assessment to foster children s human rights focuses on teaching and assessing students social and emotional attributes within the broader context of children s rights school teachers are charged with more than just academic development every day they have opportunities to guide children toward humanistic justice orientated perspectives and to serve as role models and relationship builders built from a growing body of research on the benefits of socio emotional learning and assessment in classrooms this book prepares pre service and in service teachers to take on the shifting mindset that is required for learning processes that promote dignity and respectful relations in the classroom these concise accessible chapters address the value and effects of positive student teacher relationships classroom implementation and assessment methods student and parent inclusive feedback and more

this study discusses salient trends demonstrated by contemporary warfare of these first years of the 21st century the authors reinforce previous notions of fourth generation warfare but most importantly explore the workings of new components and how these have modified the theory and practice of warfare beyond the basic divisions of conventional and unconventional warfare as witnessed in the preceding century throughout history there has been a close interaction between politics communication and armed conflict and a main line of investigation of this book is to track changes that are presumed to have occurred in the way and manner in which armed conflicts are waged using cogent examples drawn variously from conflicts of the arab spring the islamic state and russian adventurism in south ossetia crimea and eastern ukraine the authors demonstrate the application of information warfare the practice of hybrid warfare and offensive use of diplomacy communications economics and international law to obtain political and military advantages against the status quo states of the international community the authors combine a theoretical framework with concrete empirical examples in order to create a better understanding and comprehension of the current events and processes that shape the character of contemporary armed conflicts and how they are informed and perceived in a highly mediatised and politicised world

consumer and environmental protection depend on the careful regulation of all classes of chemicals toxicology is the key science used to evaluate safety and so underpins regulatory decisions on chemicals with the growing body of eu legislation involved in chemical regulation there is a concomitant need to understand the toxicological principles underlying safety assessments regulatory toxicology in the european union is the first book to cover regulatory toxicology specifically in europe it addresses the need for a wider understanding of the principles of regulatory toxicology and their application and presents the relationship between toxicology and

legislative processes in regulating chemical commodities across europe this title has a broad scope covering historical and current chemical regulation in europe the role of european agencies and institutions and also the use of toxicology data for important classes of chemicals including human and veterinary medicines animal feed and food additives biocides pesticides and nanomaterials this book is therefore extremely pertinent and timely in the toxicology field at present this book is an essential reference for regulatory authorities industrialists academics undergraduates and postgraduates working within safety and hazards toxicology the biological sciences and the medicinal and pharmaceutical sciences across the european union

a perfect mirror to its subject should be compulsory reading observer vladimir putin is a pariah to the west he has the power to reduce the west to nuclear ashes he invades his neighbours meddles in western elections and orders assassinations his regime is autocratic and corrupt yet many russians continue to support him under putin s leadership russia has once again become a force to be reckoned with philip short s magisterial biography explores in unprecedented depth the personality of russia s leader and demolishes many of our preconceptions about putin s russia to explain is not to justify putin s regime is dark but on closer examination much of what we think we know about him turns out to rest on half truths this book is as close as we will come to understanding russia s ruler short s pushback against lazy convenient myth making is refreshing the times elegantly written and pacy financial times extensively covers the dark moments of putin s career the putin of short s book is not someone you would invite to dinner new york times

this report is the third oecd review of poland s environmental performance it evaluates progress towards sustainable development and green growth with a focus on forestry and biodiversity as well as waste and materials management

the wto s trade policy review mechanism which reviews the trade policies and practices of each wto member at regular intervals is generally considered to function well in this day and age complacency is unwise examining trade policy reviews throughout the lifetime of the tprm this book details its evolution from article x of the general agreement on tariffs and trade to the proposed modifications resulting from the mechanism s latest appraisal examining the budgetary capabilities and technical performance of all the main entities who participate in the reviews on the basis of these considerations the author concludes that in order to remain relevant especially in times of increased global protectionism the tprm could and should do better and provides unique and timely

suggestions for reform

within the still on going strengthening process the various un treaty bodies can bring about lasting change on their own this book shows that they are the ones who can introduce new powers using the interpretation of procedural provisions

between 1922 and 1996 over 10 000 girls and women were imprisoned in magdalene laundries including those considered promiscuous a burden to their families or the state those who had been sexually abused or raised in the care of the church and state and unmarried mothers these girls and women were subjected to forced labour as well as psychological and physical maltreatment using the irish state s own report into the magdalene institutions as well as testimonies from survivors and independent witnesses this book gives a detailed account of life behind the high walls of ireland s magdalene institutions the book offers an overview of the social cultural and political contexts of institutional survivor activism the irish state s response culminating in the mcAleese report and the formation of the justice for magdalenes campaign a volunteer run survivor advocacy group ireland and the magdalene laundries documents the ongoing work carried out by the justice for magdalenes group in advancing public knowledge and research into magdalene laundries and how the irish state continues to evade its responsibilities not just to survivors of the magdalenes but also in providing a truthful account of what happened drawing from a variety of primary sources this book reveals the fundamental flaws in the state s investigation and how the treatment of the burials exhumation and cremation of former magdalene women remains a deeply troubling issue today emblematic of the system of torture and studious official neglect in which the magdalene women lived their lives the authors are donating all royalties in the name of the women who were held in the magdalenes to epic empowering people in care

the transatlantic trade and investment partnership ttip has stirred passions like no other trade negotiation in recent history its supporters maintain that ttip will produce spectacular growth and job creation claims that are wholeheartedly rejected by its critics who regard ttip as a direct assault on workers rights health and safety standards and public services in this incisive analysis gabriel siles brugge and ferdi de ville scrutinize the claims made by ttip s cheerleaders and scaremongers to reveal a far more nuanced picture behind the headlines ttip will not provide an economic cure all nor will it destroy the european welfare state in one fell swoop thanks to unprecedented levels of protest and debate around ttip however neoliberal trade negotiations are well and truly back in the spotlight in this respect ttip could well prove to be a game changer just not in the way imagined by its backers
