education and the general surgeon an issue of surgical clinics e book

in 2003 in the face of errors and accidents caused by medical and surgical trainees the american council of graduate medical education mandated a reduction in resident work hours to eighty per week over the course of two and a half years spent observing residents and staff surgeons trying to implement this new regulation katherine c kellogg discovered that resistance to it was both strong and successful in fact two of the three hospitals she studied failed to make the change challenging operations takes up the apparent paradox of medical professionals resisting reforms designed to help them and their patients through vivid anecdotes interviews and incisive observation and analysis kellogg shows the complex ways that institutional reforms spark resistance when they challenge long standing beliefs roles and systems of authority at a time when numerous policies have been enacted to address the nation s soaring medical costs uneven access to care and shortage of primary care physicians challenging operations sheds new light on the difficulty of implementing reforms and offers concrete recommendations for effectively meeting that challenge

situational awareness has become an increasingly salient factor contributing to flight safety and operational performance and the research has burgeoned to cope with the human performance challenges associated with the installation of advanced avionics systems in modern aircraft the systematic study and application of situational awareness has also extended beyond the cockpit to include air traffic controllers and personnel operating within other complex high consequence work domains this volume offers a collection of essays that have made important contributions to situational awareness research and practice to this end it provides unique access to key readings that address the conceptual development of situational awareness methods for its assessment and applications to enhance situational awareness through training and design

in connection with the recent treatment of radium and the actinides the gmelin institute is carrying out the description of thorium and its compounds the supplement volumes a 2 a 3

a 4 and a 5 with the history isotopes uses the recovery of thorium and general properties of thorium atom and ions the thermodynamics of its compounds and solutions spectroscopic data and analytical chemistry biological behavior health protection and safety control have already been published the supplement volumes c 1 c 2 and c 3 describing the compounds with the noble gases hydrogen oxygen compounds and nitrogen compounds are also available also have been published supplement volumes c 5 and c 7 describing the compounds with sulfur selenium tellurium and boron carbonates thiocyanates alkoxides and carboxylates the supplement volumes d 1 d 2 and d 3 describing the properties of thorium ions in solution and the solvent extraction of thorium as well as supplement volume e describing the coordination compounds also have been published the present volume begins in a summary fashion with a description of the natural occurrence of the element th especially stressed are those facts that are most important in understanding its geological distribution on earth as e g mode of occurrence and distribution among minerals and its behavior in minerals as e g mode of occurrence and distribution among minerals and its behavior in minerals as e g diadochy and metamictization of minerals attached is a tabulation of the highest reported th or tho₂ content in minerals that normally by their crystal chemical formula do not contain th the main part of the present volume describes the minerals of th as can be seen from the crystal chemical formulas there are in addition to a few minerals containing th as the sole cation a number of minerals that contain th as an additional cation or as a diadochic element in the case of diadochic substitution the mineral may represent a th rich end member of a solid solution series and therefore is described as a separate th mineral or may only sporadically contain higher amounts of th no mineral description is given the mineral descriptions in this volume including oxides carbonates and phosphates siliconophosphates of th comprise the following topics occurrence chemistry crystal form and structure optical and other physical properties and chemical and thermal behavior the silicates of th and the deposits of th will be described in the volume thorium suppl vol a 1b that also contains a mineral index for both volumes

this book provides a detailed guide for surgeons and surgical trainees on a variety of facets relevant to wellbeing and how to maintain wellbeing throughout a career in academic surgery individual and external factors relevant to wellbeing are both covered in relation to the surgeon aspects covered include healthcare roles personal factors socio

cultural factors the regulatory business and payer environment potential strategies for managing welfare including considerations for both students and residents are provided as are methodologies for studying aspects of wellbeing wellbeing offers a practical and personal insight on maintaining wellbeing in academic surgery and is a valuable resource for all practicing and trainee surgeons across a variety of disciplines as well as those who are interested in studying factors affecting the wellbeing of surgical specialists
