the true and complete story behind the russiagate hoax revealed for the first time how was a clinton campaign dirty trick turned into an all out effort by factions within the federal government to drive out a sitting president the astonishing story is told from the perspective of a motley crew of twitter users who against all odds exposed the intricate layers of a political scandal that shook the nation swiftboating america delves into how these citizen journalists identified the steele dossier s primary source igor danchenko and how they revealed that danchenko did not have access to the information in the dossier it also explores how the fbi concealed danchenko from the public eye for four years the book reveals shocking new details about how the fbi s crossfire hurricane investigation of the trump campaign actually began and how robert mueller s special counsel office attempted to cover up the fbi s misdeeds among many other revelations the book presents the previously untold story of how the clinton campaign fabricated a false data trail that supposedly linked trump to the kremlin meticulously researched and footnoted swiftboating america is the most comprehensive account of how a combination of the clinton campaign a former british intelligence officer the fbi the cia the president the vice president and the media plotted to undermine a presidential candidate and later the president himself their actions were the greatest act of domestic political sabotage of all time

university ethics is everyone s business and big business is what the university is all about whether in the us europe or the rest of the world how this has come about is less important than that it has and is being taken very seriously by global and national forces the important issue confronting higher education is its assumed role in guaranteeing economic prosperity

governments are no longer content to let research leak out serendipitously into the economy the post industrial society information society knowledge economy and smart economy require nothing less than commercially directed research producing innovatory products the public interest is reduced to economic measures the political social and moral implications of changing practices in the university are rarely acknowledged in the rise of the new alchemy this book examines the resulting ambiguities and questionable evidence in favour of current policies

many of the chapters in the present volume were first presented at the 2008 bsa annual conference of social worlds natural worlds held at the university of warwick acknowledgements

the services sector now accounts for over 70 of employment and value added in oecd economies it also accounts for almost all employment growth in the oecd area but despite its growing weight in oecd economies productivity growth and employment rates in services remain low in many oecd countries to improve the basis for future economic growth and to address the rapid globalisation of oecd economies the services sector will need to do better than is currently the case but how can services performance be improved and which factors and policies are the most important this report provides an overview of the role of services in economic performance and the factors that affect services sector performance this includes the role of labour and product markets the impact of barriers to trade in services the role of innovation in services and the impacts of information and communications technology ict on

the services sector the report also includes a paper presenting case studies of successful services firms which help illustrate the broader analysis from oecd data the report shows that services are indeed of growing importance to oecd economies but that not all oecd economies have sufficiently adjusted their policies to seize greater benefits from the potential for growth and innovation in the services sector adjusting these policies will help in preparing oecd economies for a future characterised by an increasingly internationalised and competitive services sector

dr flynn covers all of the above questions and more in his new book the blame game a must read for anyone interested in environmental issues in ireland ireland s record in the field of environmental protection is one of the worst in europe and this book explores the reasons why it examines the evolution of irish environmental policy over the so called celtic tiger years of ireland s economic boom while looking to the future as well it considers why ireland s environmental performance has been so lacklustre during this period and what scope exists for improvement the emphasis is placed primarily on institutional aspects of irish environmental policy in particular this book offers a strong critique of the current irish style of reaching environmental decisions an excessive dependence on legal instruments and a weak irish local government system the author further argues that ireland has developed an institutional style of policy making that urgently needs reform he suggest a number of discreet but related problems that need to be understood and addressed these include an excessive adversarial style of interaction between environmentalists the irish state and business the blame game described in the title also fatal is a complacency among the irish policy elite who have chosen to downplay environmental problems and continue to think of environmental policy as merely about

corrective regulation rather than adopting the wider and more ambitious vision of sustainable development individual chapters cover a range of topics and the book will appeal to readers interested in comparative environmental policy and politics the role of institutions in environmental policy making or indeed anyone keen to understand the post celtic tiger politics and society of an ireland in transition
