this book is written for any clinician who encounters substance abuse in a patient and wonders

what to do experts from a cross section of specialties and health professions provide up to date evidence based guidance on how non expert clinicians can recognize understand and approach the management of substance abuse in their patients they detail the range of treatments available and whether and how they work the central importance of using a carefully selected multimodal approach that is tailored to the individual patient is emphasized throughout and illustrated in case scenarios from actual clinical practice

unlike some other reproductions of classic texts 1 we have not used ocr optical character recognition as this leads to bad quality books with introduced typos 2 in books where there are images such as portraits maps sketches etc we have endeavoured to keep the quality of these images so they represent accurately the original artefact although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy

Thank you very much for reading
