many of the most powerful lessons that happen during the pivotal college years don't take place in the classroom they happen in the world outside it 50 things every college student should know is the go to book for all college students on the brink of entering the real world this best selling guide helps students get the most out of their college experience from day one by teaching them those simple yet critical lessons that can truly lead to a brighter future written by college leadership and millennial workplace expert antonio neves with college students in mind this book gets straight to the point in bite sized chapters and helps students get the most out of their college experience from day one on campus this book is the perfect high school graduation gift college orientation guide and conversation starter for students

today's college students a reader looks at a wide variety of student groups and identities which sets it apart from other texts on contemporary college students that do not cover such a broad spectrum

this book turns the traditional approach to student success on its head by examining the learning habits of successful students based on what they have told us about their learning strategies on what they do to succeed in college and on the teaching practices they think best foster their learning this approach is in stark contrast to most recent studies of learning at the college level which focus on what students need to do to succeed but are written from the point of view of experts who provide advice to struggling students learning from the learners successful college students share their effective learning habits is based on what expert students tell us about what they as learners do to succeed it is grounded in a 10 year study that rests on a rich qualitative data set that includes open ended survey responses gathered on a term by term basis and in depth interviews during the freshman and junior years with over 700 students of diverse backgrounds additionally since many students interviewed were the first in their family to attend college and from backgrounds traditionally underserved by higher education the book s insights will be of particular interest to educators elsewhere who are increasingly expected to help similar students succeed themes include student success academic challenges diversity pedagogy and technology in the classroom no other book on the widely discussed subject of student success relies on such a wealth of quantitative and qualitative data about what works from the point of view of students themselves

living the college life helps you overcome the freshman fear factor college will be one of the most exciting and intimidating times of your life and you re going to have questions as you head into this new experience living the college life gives you real answers to common questions answers from students who have been there done that more than 100 upperclassmen and recent graduates from colleges all over the country candidly discuss what worked and what didn t work for them topics include what to take with you this book for example academics social and campus life relationships and money questions cut to the chase how should i handle alcohol issues how can i deal with the roommate from hell should i take advantage of that great sounding credit card should i withdraw from that class i m having trouble in should i join a sorority or fraternity should i take a computer laptop or desktop how often should i go home don t ask your mother that question issues are discussed in a quick painless question answer format with this book you ll have the tools you need to think through the tough questions and make the best decisions for you with living the college life cliffsnotes the resource that helps millions get to and through college now helps you get off to a good start on campus

the struggles and achievements of today s college students are thrown into stark relief in this fascinating account of how such students make meaning of their lives author mary grigsby uses the voices of students themselves to discuss how they view adjust to and participate in the college student culture of a large midwestern university and to explore what they think of their educational experiences topics include a look at a typical day on campus student subcultures and the lifestyles they engender whether college life conforms to the images and scenarios of popular culture and student approaches to making it through college going to college has become the major coming of age experience for many people in the united states and mary grigsby has provided a compelling readable and up to date account of this formative period

the public outcry for a return to moral education in our schools has raised more dust than it s dispelled building upon his provocative ideas in on becoming responsible

michael pritchard clears the air with a sensible plan for promoting our children's moral education through the teaching of reasonableness pritchard contends that children have a definite but frequently untapped capacity for reasonableness and that schools in a democratic society must make the nurturing of that capacity one of their primary aims as fundamental to learning as the development of reading writing and math skills reasonableness itself he shows can be best cultivated through the practice of philosophical inquiry within a classroom community in such an environment children learn to work together to listen to one another to build on one another's ideas to probe assumptions and different perspectives and ultimately to think for themselves advocating approaches to moral education that avoid mindless indoctrination and timid relativism pritchard neither preaches nor hides behind abstractions he makes liberal use of actual classroom dialogues to illustrate children's remarkable capacity to engage in reasonable conversation about moral concepts involving fairness cheating loyalty truth-telling lying making and keeping promises obedience character and responsibility he also links such discussions to fundamental concerns over law and moral authority the roles of teachers and parents and the relationship between church and state pritchard draws broadly and deeply from the fields of philosophy and psychology as well as from his own extensive personal experience working with children and teachers the result is a rich and insightful work that provides real hope for the future of our children and their moral education

issues for 1865 include index

introduces nutrition by linking information on nutrients to an understanding of how food production and processing and the impact of these on environmental quality influence each person's nutritional status discusses how nutrients work in the body why some foods are high or low in individual nutrients how the body is harmed by deficiencies or excesses of nutrients and why nutrient requirements change as we get older
