ever since its scientific discovery the great nasca site of cahuachi on the south coast of the central andes has captured the attention of archaeologists art historians and the general public until helaine silverman s fieldwork however ancient nasca culture was seen as an archaeological construct devoid of societal context silverman s long term multistage research as published in this volume reconstructs nasca society and contextualizes the traces of this brilliant civilization ca 200 b c a d 600 silverman shows that cahuachi was much larger and more complex than portrayed in the current literature but that surprisingly it was not a densely populated city rather cahuachi was a grand ceremonial center whose population size density and composition changed to accommodate a ritual and political calendar silverman

meticulously presents and interprets an abundance of current data on the physical complexities burials and artifacts of this prominent site in addition she synthesizes the history of previous fieldwork at cahuachi and introduces a corrected map and a new chronological chart for the rio grande de nazca drainage system on the basis of empirical field data ethnographic analogy and settlement pattern analysis silverman constructs an andean model of nasca culture that is crucial to understanding the development of complex society in the central andes written in a clear and concise style and generously illustrated this first synthesis of the published data about the ancient nasca world will appeal to all archaeologists art historians urban anthropologists and historians of ancient civilizations

from 1973 through 1979 the university museum sponsored investigations at quiriguá a major lowland maya site in eastern guatemala in order to document the basic chronology determine the nature and pattern of structures and test hypotheses concerning the origins location and demise of the city this monograph reports the findings of the survey and excavations carried out in the lower motagua valley providing a regional context for quiriguá this volume focuses on wider valley centers with monumental architecture examining their chronology function and regional and interregional contacts university museum monograph 80

the recovery of natural environments in architecture challenges the modern practice of sealing up and mechanically cooling public scaled buildings in whichever climate and environment they are located this book unravels the extremely complex history of understanding and perception of air bad air miasmas airborne pathogens beneficial thermal conditions ideal climates and climate determinism it uncovers inventive and entirely viable attempts to design large buildings hospitals theatres and academic buildings through the 19th and early 20th centuries which use the configuration of the building itself and a shrewd understanding of the natural physics of airflow and fluid dynamics to make good comfortable interior spaces in exhuming these ideas and reinforcing them with contemporary scientific insight the book proposes a recovery of the lost art and science of making naturally conditioned buildings
