neil strauss became famous to millions around the world as the author of the game a funny and slyly instructive account of how he transformed himself from a scrawny insecure nerd into the ultra confident ultra successful pickup artist known as style the book jump started the international seduction community and made strauss a household name revered or notorious among single men and women alike but the experience of writing the game also transformed strauss into a man who could have what every man wants the ability to date or have casual sex with almost every woman he met the results were heady to be sure but they also conditioned him to view the world as a kind of constant parade of women sex and opportunity with intimacy and long term commitment taking a back seat that is until he met the woman who forced him to choose between herself and the parade the choice was not only difficult it was wrenching it forced him deep into his past to confront not only the moral dimensions of his pickup lifestyle but also a wrenching mystery in his childhood that shaped the man that he became it sent him into extremes of behavior that exposed just how conflicted his life had become and it made him question everything he knew about himself and about the way men and women live with and without each other he would never be the same again searingly honest compulsively readable this book may have the same effect on you
