the proliferation of all kinds of weapons is a focal point for international security this work shows how both the language used to talk about weapons proliferation and the practices adopted to respond to it serve to define the problem in ways that promote policy responses doomed to failure

for the third year running this book originally published in 1984 provided those actively concerned with the dangers of war at the time with well researched and up to date information on military developments of every kind based on material published in the sipri yearbook 1984 this book contains the essential data on nuclear issues on military expenditure and the arms trade and examines the breakdown of the arms control talks in 1983

a continuance of sipri s review of the latest developments in nuclear weapons world military expenditure internationals arms trade ongoing conflicts and other military activities

on the debate over whether or not arms transfers increase or deter the chances of war cassady b craft offers a balanced assessment of the effect of arms transfers on war involvement and outcomes he considers correlations at the state and global level supplier and recipient relationships and the extent of the relationship in the perceptions of individual leaders this is the first study to examine the influence of arms transfers on combined interstate and civil wars drawing on a variety of theories and quantitative methods including force on force attrition models it uses innovative techniques that have the potential to change the way analysts weigh the impact of weapons sales this book will provide both analysts and policymakers with a comprehensive examination of the various tradeoffs between weapons sales and the probability of conflict

written by over 20 leading international economists this book offers win win scenarios to economic problems as in the other volumes of this set of public policy handbooks the handbook of global economic policy employs a unique organizational principle from viewing economic problems from conservative and liberal perspectives to developing practical non ideological solutions to the problems and finally testing the solution s feasibility in terms of economic administrative political psychological legal international and technological obstacles the authors confront conventional wisdom about tradeoffs between unemployment and inflation economic growth and displaced workers and c

in the prevailing climate of uncertainty and apprehension about southeast asia s security outlook in the post cold war era this study looks at the question of whether there is an impending arms race in the region it examines the factors behind the recent trends towards increased defence spending and force modernisation in countries in the region and what efforts should and can be undertaken to ensure that this build up does not become a threat to regional security and stability

a history of our time
