police are required to obey the law while that seems obvious courts have lost track of that requirement due to misinterpreting the two constitutional provisions governing police conduct the fourth and fourteenth amendments the fourth amendment forbids unreasonable searches and seizures and is the source of most constitutional constraints on policing although that provision technically applies only to the federal government the fourteenth amendment ratified in the wake of the civil war has been deemed to apply the fourth amendment to the states this book contends that the courts misinterpretation of these provisions has

led them to hold federal and state law enforcement mistakenly to the same constitutional standards the fourth amendment was originally understood as a federalism or states rights provision that in effect required federal agents to adhere to state law when searching or seizing thus applying the same constraint to the states is impossible instead the fourteenth amendment was originally understood in part as requiring that state officials 1 adhere to state law 2 not discriminate and 3 not be granted excessive discretion by legislators these principles should guide judicial review of modern policing instead constitutional constraints on policing are too strict and too forgiving at the same time in this book michael j z mannheimer calls for a reimagination of what modern policing could look like based on the original understandings of the fourth and fourteenth amendments
