in recent years a flurry of reports on downsizing outsourcing and flexible staffing have created the impression that stable long term jobs are a thing of the past according to conventional wisdom workers can no longer count on building a career with a single employer and job security is a rare prize while there is no shortage of striking anecdotes to fuel these popular beliefs reliable evidence is harder to come by researchers have yet to determine whether we are witnessing a sustained economy wide decline in the stability of american jobs or merely a momentary rupture confined to a few industries and a few classes of workers on the job launches a concerted effort to reconcile the conflicting evidence about job stability and security the book examines the labor force as a whole not merely the ousted middle managers who have attracted the most publicity it looks at the situation of women as well as men young workers as well as old and workers on part time non standard or temporary work schedules the evidence suggests that long serving managers and professionals suffered an unaccustomed loss of job security in the 1990s but there is less evidence of change for younger newer recruits the authors bring our knowledge of the labor market up to date connecting current conditions in the labor market with longer term trends that have evolved over the past two decades they find that layoffs in the early

1990s disrupted the implicit contract between employers and staff but it is too soon to declare a permanent revolution in the employment relationship having identified the trends the authors seek to explain them and to examine their possible consequences if the bonds between employee and employer are weakening who stands to benefit frequent job switching can be a sign of success for a worker if each job provides a stepping stone to something better but research in this book shows that workers gained less from changing jobs in the 1980s and 1990s than in earlier decades the authors also evaluate the third party intermediaries such as temporary help agencies which profit from the new flexibility in the matching of workers and employers besides opening up new angles on the evidence the authors mark out common ground and pin point those areas where gaps in our knowledge remain and popular belief runs ahead of reliable evidence on the job provides an authoritative basis for spotting the trends and interpreting the fall out as u s employers and employees rethink the terms of their relationship

no amount of career counseling is going to help you figure out how to get a coworker to quit snooping through your e mail how to deal with an underground romance that has accidentally become public knowledge or how to regroup and save face after a disastrous client meeting finally here s a book that explains how the world of work really operates and how to navigate it on the job combines the hard hitting advice of stephen viscusi one of today s best known experts on job related problems with enlightening this could happen to you scenarios and true life stories in this manual for every kind of on the job predicament viscusi provides strategies for keeping your balance and sanity in an unpredictable and frequently unfair world establishing an identity that reflects your skills and goals but not your most intimate secrets communicating effectively in every venue from meetings to e mails to gossip whether you re starting out on your first job or you ve been at it for twenty years on the job
