nevil shute was a pioneer in the world of flying long before he began to write the stories that made him a bestselling novelist this autobiography charts shute's path from childhood to his career as a gifted aeronautical engineer working at the forefront of the technological experimentation of the 1920s and 30s the inspiration for many of the themes and concerns of shute's novels can be found in this enjoyable and enlightening memoir

contracts for construction and engineering projects provides unique and invaluable guidance on the role of contracts in construction and engineering projects the work explores various aspects of the intersection of contracts and construction projects involving the work of engineers and other professionals engaged in construction whether as project managers designers constructors contract administrators schedulers claims consultants forensic engineers or expert witnesses compiling papers written and edited by the author refined and expanded with additional chapters in this new edition this book draws together a lifetime of lessons learned in these fields and covers the topics a practising professional might encounter in construction and engineering projects developed in bite sized chunks the chapters are divided into five key parts 1 the engineer and the contract 2 the project and the contract 3 avoidance and resolution of disputes 4 forensic engineers and expert

witnesses and 5 international construction contracts the inclusion of numerous case studies to illustrate the importance of getting the contract right before it is entered into and the consequences that may ensue if this is not done makes this book essential reading for professionals practising in any area of design construction contract administration preparation of claims or expert evidence as well as construction lawyers who interact with construction professionals

in this book first published in 1971 the author develops and tests a productivity system based on added value as the measure of company income and output the theory behind the system is that the behaviour of a company can best be explained in terms of its need to create an income from this it follows that its effectiveness depends on the efficiency with which it uses all the resources at its disposal to create this income if it is accepted that the need is to create an income then the efforts of the employees the objectives of individuals the pricing procedures and the control systems must be co ordinated to achieve this end this title will be of interest to students of management economics and business studies

an extraordinary account of heroism and sacrifice an unexpected and important story rivetingly told rip roaring stuff get this into the paws of the sea dog in your life griff rhys jones a book that had to be written let s talk people ashore don t realise what a grim war we are waging at sea with the germans a cold blooded war in a way i think requiring the maximum of bravery from the men of both sides in the long run as it is so ceaseless and intangible you just don t know whether the next moment will be your last robert hichens rnvsr several years ago julia jones was searching through long forgotten items stored at her house and discovered some suitcases of old written material which turned out to be accounts by her father of his experiences in the rnvsr royal naval volunteer supplementary reserve she realised that as a child she d met some of the people mentioned and although she was too young to truly know them these youthful impressions spurred her on to rediscovery and understanding in this absorbing book julia tells the compelling stories of the yachtsmen some were famous such as sir peter scott others were wealthy such as august courtauld who returned his pay to help with the war effort but the majority were just ordinary professionals such as publishers lawyers and advertising agents who signed up because they loved sailing few could ever have dreamed that they would end up acting in areas that were so far beyond their normal lives as they found themselves commanding destroyers and submarines and undertaking covert missions of sabotage some undertook the dangerous daily drudgery of minesweeping others tackled unexploded bombs engaged the enemy in high speed attacks or played key roles in ian fleming s famous intelligence commandos this varied crew of men were given tasks vital to the war effort requiring endurance extraordinary bravery resourcefulness and quick thinking some died in the process but for the ones who survived julia asks how their experiences changed them could their love of sailing and the sea survive the harsh realities of war
