in a day when the fourth leading cause of death in America is due to adverse effects of properly prescribed drugs
Journal of American Medical Association July 2000
many are asking are there not safer alternatives
yes there are allow me to introduce to you one extraordinary yet simple natural remedy
activated medicinal charcoal
charcoal what is it we drink water filtered by it
breath are scrubbed with it
eat food purified through it
wear clothes made with it
preserve things in it
go to war with it
enjoy hundreds of dishes cooked by it
we move mountains with it
we make the night sky sparkle with it
grow our food and flowers in it
we take it with us to the bottom of the deepest oceans and out into space
swim in water washed with it
draw our inspirations with it
record man's history dipped in it and then we call upon it to clean up many of our environmental mistakes
not least and not last medicinal charcoal plays an increasingly significant role in maintaining restoring and enhancing man's level of health
no wonder we naturally warm up to it
I heartily recommend charcoalremedies.com the complete handbook of medicinal charcoal and its applications by author John Dinsley as a physician as a mother and grandmother as a public health educator for the past 41 years
I have come to fully trust the efficacy and safety of charcoal as simple yet powerful home remedy
this book serves not only as a reference book of medicinal charcoal facts but also brings together a hundred and fifty different charcoal experiences of individuals from around the world
people need this book every family every healthcare worker every traveler abroad every health conscious individual needs a copy in their home library
Agatha Thrast MD Co-founder Uchee Pines Institute Medical Examiner for the State of Georgia

contains courses of study rules and regulations and directory of teachers

this practical book explains how to make charcoal using the simplest processes
once understood it encourages artists to experiment with the technique and to enjoy its unpredictable results
a sister title to drawing with charcoal it will inspire artists and makers to look further into this sustainable material and to embrace its exciting potential

we are happy to introduce the handbook of charcoal making a comprehensive survey written by a competent expert with international experience the book was prepared by the commission of the european communities in the frame of its r d programme on biomass in the european community today the biomass option is only little developed a huge resource is waiting for use actually there is ample scope for biomass utilisation as it bears promise in some of the vital sectors of modern society development of indigenous and renewable energy sources creation of new employment recycling of wastes and improvement of the environment restructuring of european agriculture development of the third world they are all concerned it is important to note that the exploitation of the biomass resource is largely related to its conversion into a marketable product however as many of the conversion technologies are not yet well established or need improvement r d is more than ever the critical pathway to get access to the benefits of biomass utilisation in the european communities i r d programme thermal conversion of biomass is developed with priority gasification as well as pyrolysis development projects are being supported by the commission in european industry and universities pyrolysis is particularly attractive because the conversion products charcoal and pyrolytic oil are very convenient in use technologies are relatively simple and projected pay back times favourable v charcoal making is just the simplest and oldest form of pyrolysis
