this is a book for anyone who wants to know what sociology is and what sociologists do in a subject which has changed dramatically over the last twenty years sociology the basics offers the most up to date guide to the major topics and areas of debate it covers among other things sociology and society laws morality and science social relations power and communication society in the future becoming a sociologist clearly written concise and comprehensive sociology the basics is an essential introductory handbook

a lively accessible and comprehensive introduction to the diverse ways of thinking about social life sociology the basics examines the scope history and purpose of sociology ways of understanding the social the state of the world we live in today suffering and social inequalities key tools for researching and thinking about the social the impact of new technologies the reader is encouraged to think critically about the structures meanings histories and cultures found in the rapidly changing world we live in with tasks to stimulate the sociological mind and suggestions for further reading both within the text and on an accompanying webpage this book is essential reading for all those studying sociology and those with an interest in how the modern world works

a very welcome volume of essays questioning the presumption of irreconcilable conflict between science and religion british journal for the history of science the conflict thesis the idea that an inevitable irreconcilable conflict exists between science and religion has long been part of the popular imagination the warfare between science and religion assembles a group of distinguished historians who explore the origin of the thesis its reception the responses it drew from various faith traditions and its continued prominence in public discourse several essays examine the personal circumstances and theological idiosyncrasies of important intellectuals including john william draper and andrew dickson white who through their polemical writings championed the conflict thesis relentlessly others consider what the thesis meant to different religious communities including evangelicals liberal protestants roman catholics eastern orthodox christians jews and muslims finally essays both historical and sociological explore the place of the conflict thesis in popular culture and intellectual discourse today based on original research and written in an accessible style the essays in the warfare between science and religion take an interdisciplinary approach to question the historical relationship between science and religion and bring much needed perspective to an often bitter controversy contributors include thomas h aechtner ronald a binzley john hedley brooke elaine howard ecklund noah efron john h evans maurice a finocchiaro frederick gregory bradley j gundlach monte harrell hampton jeff hardin peter harrison bernard lightman david n livingstone david mislin efthymios nicolaidis mark a noll ronald l numbers lawrence m principe jon h roberts christopher p scheitle m alper yalçinkaya

anthropological reflections on citizenship focus on themes such as politics ethnicity and state management present day scholarship on citizenship tends to problematise unsettle and contest often taken for granted conventional connotations and associations of citizenship with imagined culturally bounded political communities of rigidly controlled borders this book the result of two years of research conducted by south african and japanese scholars within the framework of a bilateral project on citizenship in the 21st century contributes to such ongoing efforts at rethinking citizenship globally and as informed by experiences in africa and japan in particular central to the essays in this book is the concept of flexible citizenship predicated on a recognition of the histories of mobility of people and cultures and of the shaping and reshaping of places and spaces and ideas of being and belonging in the process the book elucidates the contingency of political membership relationship between everyday practices and political membership and how citizenship is the mechanism for claiming and denying rights to various political communities self requires others to construct itself a reality that is subject to renegotiation as one continues to encounter others in a world characterised by myriad forms of interconnecting mobilities both global and local citizenship is thus to be understood within a complex of power relationships that include ones formed by laws and economic regimes on a local scale and beyond citizenship in africa japan and indeed everywhere is best explored productively as lying between the open ended possibilities and tensions interconnecting the global and local

this is a compact yet comprehensive title that clarifies and explains the main concepts within sociology it is useful both for new students and for students who wants to refresh their memory and come up with new ideas for essay topics
