evaluating practice comes with a free cd rom featuring numerous programs including the unique and innovative singwin program for analyzing single system design data created by charles auerbach david schnall and heidi heft laporte of yeshiva university the cass and caap programs for managing cases and scoring scales created by walter hudson and a new set of microsoft excel workbooks and interactive exercises book jacket

this book is the longest standing and most widely adopted text in the field of social work research and evaluation since the first edition in 1981 it has been designed to provide beginning social work students the basic methodological foundation they need in order to successfully complete more advanced research courses that focus on single system designs or program evaluations its content is explained in extraordinarily clear everyday language which is then illustrated with social work examples that social work students not only can understand but appreciate as well many of the examples concern women and minorities and special emphasis is given to the application of research methods to the study of these groups without a doubt the major strength of this book is that it is written by social workers for social work students the editors have once again secured an excellent and diverse group of social work research educators the 31 contributors know firsthand from their own extensive teaching and practice experiences what social work students need to know in relation to research they have subjected themselves to a discipline totally uncommon in compendia that is writing in terms of what is most needed for an integrated basic research methods book rather than writing in line with their own predilections

this 20e contains 400 articles which represent a thoroughly updated and expanded look at the entire field of social work the 4 volumes cover all aspects of social work from

practice interventions social environments social conditions and challenges to social policy and history co published by oup and the national assoc of social workers usa

a text for a one semester or one quarter course on research methods in social work for undergraduate or graduate level prepares readers to become critical consumers of research literature to begin to design and implement research and to evaluate practice effectiveness coverage encompasses knowl

the fifth edition of the social worker as manager combines presentation of management theory and practical advice it is designed to help social workers to successfully perform the tasks of management at any level this text was written for both students and those practitioners who find themselves with increased management responsibilities it describes those functions and tasks that all managers perform while emphasizing how they are shaped by the uniqueness of human service organizations this edition is easy to read conversational and contains many new and revised examples topics and practical applications

over thirty years of input from instructors and students have gone into this popular research methods text resulting in a refined ninth edition that is easier to read understand and apply than ever before using unintimidating language and real world examples it introduces students to the key concepts of evidence based practice that they will use throughout their professional careers it emphasizes both quantitative and qualitative approaches to research data collection methods and data analysis providing students with the tools they need to become evidence based practitioners

the audience of this book is social work students and students in other related human service programs it is designed to be used as a main text in introductory evaluation courses case management courses or applied research courses it is also suitable as supplementary text in practice methods and administration courses that place an emphasis on accountability pref

this highly successful book has been called the most comprehensive book on the market providing readers with needed career theory as well as practical techniques and examples through the author's clear writing style case examples tables and exercises readers develop a solid understanding of the theoretical models of career counseling and are thoroughly exposed to the practical information on how to effectively counsel clients about career issues

accompanying cd rom provides supporting articles targeted to each of the four sections of the text

this user friendly text is designed specifically for social work students who are intimidated by the prospect of taking a statistics course with its engaging conversational writing style and numerous examples and problems social work students will quickly learn to understand and interpret both quantitative and qualitative data the text's flexibility makes it suitable for a variety of teaching styles instructors who want their students to get the actual feel of computing a chi square can use the formula alerts to calculate certain statistics manually other instructors may want students to use the step by step computer applications to produce the same results

does the social work profession value research based knowledge as a basis for social policy serving as a compass for the problems in society that need attention and resolution the research base of social work may be the most imperative guide to social work practice however it is often overshadowed by the actual labor of the profession this book combines research with practice providing research knowledge in a workbook format that brings social work to life this workbook provides exercises that enable readers to learn by doing this edition is broken down into more topic units for ease of reference and there are more questions to apply to each unit sample research studies featured in the book include financial victimization of the elderly the role of the eligibility worker in public welfare and sexual adjustment following spinal cord injuries educators social work researchers and social workers
