professionalisation is considered a complex phenomenon and process involving many factors the acknowledgement of the profession is not a topic for social work solely many so called new professions such as teachers and public administrators are looking for their identities and societally recognized position asking as the main question how it is recognised the development of a profession in its context is therefore an important question to determine its role and the participants in the construction and creation of the profession as such professionalisation is described through the characteristics of the profession such as knowledge base and code of ethics or the process of professionalisation accompanied by the interactionist construction of the profession although approaches to professionalisation date back to the late 19th century they are still being used and developed by adding power relations and ideologies that influence the professionalisation process social work professionalisation has been a research topic in western social work for many decades meanwhile eastern european social work is engaged in identifying the roots of professional social work analysing the impact of western social work schools and reflecting on the country specific traits and constructs of social work development

this introductory textbook distinguishes itself from others because it takes a discipline approach rather than a social problems approach to framing the foundations of social work knowledge values and skills this is a revision of the very first text to fully incorporate the strengths or empowerment perspective the text takes a strong generalist eco systems approach while integrating material from the cswe education core values and ethics cultural diversity social justice social work practice human behavior populations at risk and policy and services the text details the roles of the social worker in the functions of consultation resource management and education and presents an easy to understand paradigm that shows students how the partnership between practitioners and consumers takes place at all systems levels

in addition to providing foundational information about ethical codes and legal statutes this new text advocates for counseling personnel to view ethical issues as challenges for personal and professional growth written in an accessible concise and easy to read style this book endeavors to broaden the traditional focus of ethical study to include topics that students and practicing clinicians will find consistent with their own personal strivings and professional needs while covering the traditional core percepts of professional ethics in considerable detail confidentiality informed consent boundaries and the use of power and competency and professional responsibility it also advocates for counseling personnel to view ethical issues as challenges for personal and professional growth and it includes a number of critical topics that counselors and therapists face or will face in daily practice these include organizational ethics virtue ethics and an expanded view of multicultural ethics with a focus on community values as well as on religious and spiritual issues this new book includes a special chapter in the appendix that emphasizes ways in which

counselors and therapists can grow and achieve excellence in their personal and professional lives unique and essential coverage of organizational ethics oe is addressed making readers aware of how organizational dynamics can exert such powerful influence on ethical decision making ch 4 10 14 unique coverage of the ethical considerations involving spiritual and religious issues as well as the use of alternative interventions in counseling and psychotherapy are covered including the common lawsuits brought against counselors and therapists using spiritual and alternative interventions ch 3 a un psychological and philosophical basis of ethical decision making for readers who want and need a more in depth discussion

this compendium of all non clinical aspects of nursing covers nursing history ethics and patient rights nursing and the law the delivery system career management workplace issues the role of government and leadership and change

ethics for health care considers ethics in the context of routine health care it follows a sequence that is familiar in health care education and practice training adopting a profession becoming a team member in a health care setting beginning to see clients and working with clients as their treatment progresses while the theory of health care ethics is a central feature of the discussion the book moves beyond the traditional theory oriented organisation of most ethics texts to a structure that is generated by practical professional and client needs focusing on the interaction between health care provider and client it draws on practical experience and contemporary issues in its exploration of the ethical choices that must be made in health care readers are encouraged to relate the ideas presented to their own views and experiences and to answer questions as they read ethical issues are a feature of the everyday work of health professionals this book is designed to equip health care students and health professionals with the skills and knowledge to deal with these concerns
