the art of communication combines over two decades of research and teaching into a comprehensive guide on strategic communication grounded in the theoretical and methodological frameworks of situated communication and communication project this book highlights an understanding of both traditional and emerging communication practices it particularly focuses on new genres such as branding design and digital communication strategies and introduces the innovative concept of textscapes specially crafted environments to fulfill communicative objectives this book is enriched with practical examples and is particularly relevant in multicultural and international settings providing essential insights for adapting communication strategies to diverse cultural contexts

originally published in 1981 this is a carefully selected bibliography of group psychotherapy for both students and teachers the book is divided into three useful parts containing relevant journal articles and book chapters on a variety of topics the first part

includes topics that would be useful for a seminar in basic analytic group psychotherapy topics in the second part include group therapy with special patient populations group therapy in special settings special types of group therapy and research and outcome studies in group therapy the third part covers group therapy with children all the articles can be used to develop specialized and specific literature seminars or to elucidate issues that arise in the clinical supervision of group psychotherapy

the prominence and variety of global movements of resistance indicates that the idea of politics as governance is contested however the political canon continues to reinforce a narrow definition of politics according to liberal principles and practices this book develops a new theory of political life that includes and highlights the interconnectedness of forces of order disorder governance resistance violence and difference using the concept of the milieu both a mechanism of governance and a force of difference and transformation this book stages an encounter between the modern political and international thought of thomas hobbes and immanuel kant and the contemporary philosophy of michel foucault and gilles deleuze the writings of foucault and deleuze will serve to explore and contextualize the milieu and will function to highlight the complex mobility and relationality of notions of politics life governance and resistance

education and social dynamics offers a new approach to analyzing curriculum change by investigating the entanglement of education and society in markedly heterogeneous turkey which has recently witnessed nation wide curriculum reforms while the new curriculum has attempted to homogenize all turkish primary schools since 2005 nohl and somel drawing on a theoretical differentiation of social entities reveal how subsequent curricular practices have had to account for the diversity of milieus and organizations in the nation s educational sector and how inequality and competition run rampant in the standardization efforts using expert interviews group discussions and other empirical data that compare instructional practices within five distinct schools the book represents a breakthrough in our understanding of developments in turkey and their significance for extant theories of curriculum development and reform worldwide by linking specific case study material from turkey to intensifying international concerns it provides an important and relevant global commentary

taking a novel approach to the contradictory impulses of violence and care illness and healing this book radically shifts the way we think of the interrelations of institutions and experiences in a globalizing world living and dying in the contemporary world is not just another reader in medical anthropology but a true tour de force a deep exploration of all that makes life unbearable and yet livable through the labor of ordinary people this book comprises forty four chapters by scholars whose ethnographic and historical work is conducted around the globe including south asia east asia latin america africa the middle east europe and the united states bringing together the work of established scholars with the vibrant voices of younger scholars living and dying in the contemporary world will appeal to anthropologists sociologists health scientists scholars of religion and all who are curious about how to relate to the rapidly changing institutions and experiences in an ever more connected world

offering an overall insight into the french tradition of philosophy of technology this volume is meant to make french speaking contributions more accessible to the

international philosophical community the first section negotiating a cultural heritage presents a number of leading 20th century philosophical figures from bergson and canguilhem to simondon dagognet or ellul and intellectual movements from personalism to french cybernetics and political ecology that help shape philosophy of technology in the francophone area and feed into contemporary debates ecology of technology politics of technology game studies the second section coining and reconfiguring technoscience traces the genealogy of this controversial concept and discusses its meanings and relevance a third section revisiting anthropological categories focuses on the relationships of technology with the natural and the human worlds from various perspectives that include anthropotechnology anthropocene technological and vital norms and temporalities the final section innovating in ethics design and aesthetics brings together contributions that draw on various french traditions to afford fresh insights on ethics of technology philosophy of design techno aesthetics and digital studies the contributions in this volume are vivid and rich in original approaches that can spur exchanges and debates with other philosophical traditions

health inequity not only has tremendous economic burden but also impairs the foundations of social justice in any society the current state of scientific knowledge supports the existence of significant inequities and disparities between different social groups a significant part of our understanding of the health inequities lies in the realm of physical diseases though mental health s nature makes it more vulnerable to disparities mental health issues are sensitive matters that require additional trust cultural appropriateness acceptance and support from healthcare providers and healthcare systems as a result not only mental health patients are at risk of disparities that exist in physical diseases but they also face other challenges such as social stigma language barriers and fear of treatment that could result in disparities considering all these we need to understand where the inequities are in the realm of mental health and who is being affected the most we also need to know the existing policies and their effectiveness and efficiency and with all these then we could plan how to decrease mental health disparities and provide welfare to all

this new edition focuses on practice in mental health and psychiatric care integrating theory and the realities of practice mental wellness is featured as a concept and the consideration of a range of psychosocial factors helps students contextualise mental illness and psychiatric disorders
