ordinary banal quotidian these words are rarely used to praise architecture but in fact they represent the interest of a growing number of architects looking to the everyday to escape the ever quickening cycles of consumption and fashion that have reduced architecture to a series of stylistic fads architecture of the everyday makes a plea for an architecture that is emphatically un monumental anti heroic and unconcerned with formal extravagance edited by deborah berke and steven harris this collection of writings photo essays and projects describes an architecture that draws strength from its simplicity use of common materials and relationship to other fields of study topics range from a website that explores the politics of domesticity to a transformation of the sidewalk in los angeles little tokyo to a discussion of the work of robert venturi and denise scott brown contributors include margaret crawford peggy deamer deborah fausch ben gianni and mark robbins joan ockman ernest pascucci alan plattus and mary ann ray deborah berke and steven harris are currently associate professors of architecture at yale university and have their own practices in new york city

essays on a vision of architecture that draws strength from its simplicity and use of common materials

toward an architecture of enjoyment is the first publication in any language of the only book devoted to architecture by henri lefebvre written in 1973 but only recently discovered in a private archive this work extends lefebvre s influential

theory of urban space to the question of architecture taking the practices and perspective of habitation as his starting place lefebvre redefines architecture as a mode of imagination rather than a specialized process or a collection of monuments he calls for an architecture of jouissance of pleasure or enjoyment centered on the body and its rhythms and based on the possibilities of the senses examining architectural examples from the renaissance to the postwar period lefebvre investigates the bodily pleasures of moving in and around buildings and monuments urban spaces and gardens and landscapes he argues that areas dedicated to enjoyment sensuality and desire are important sites for a society passing beyond industrial modernization lefebvre s theories on space and urbanization fundamentally reshaped the way we understand cities toward an architecture of enjoyment promises a similar impact on how we think about and live within architecture

a highly original collection of essays that explore the relationship between food and architecture the preparation of meals and the production of space

architects however tend to deny this fearing contingency and preferring to pursue perfection

although the disciplines of architecture and structural engineering have both experienced their own historical development their interaction has resulted in many fascinating and delightful structures to take this interaction to a higher level there is a need to stimulate the inventive and creative design of architectural structures and to persuade architects and structural engineers to further collaborate in this process exploiting together new concepts applications and challenges this set of book of abstracts and full paper searchable cd rom presents selected papers presented at the 3rd international conference on structures and architecture conference icsa2016 organized by the school of architecture of the university of minho guimarães portugal july 2016 to promote the synergy in the collaboration between the disciplines of architecture and structural engineering

between 1700 and 1830 men and women in the english speaking territories framing the atlantic gained unprecedented access to material things the british atlantic was an empire of goods held together not just by political authority and a common language but by a shared material culture nourished by constant flows of commodities diets expanded to include exotic luxuries such as tea and sugar the fruits of mercantile and colonial expansion homes were furnished with novel goods like clocks and earthenware teapots the products of british industrial ingenuity this groundbreaking book compares these developments in britain and north america bringing together a multi disciplinary group of scholars to consider basic questions about women men and objects in these regions in asking who did the shopping how things were used and why they became the subject of political dispute the essays show the profound significance of everyday objects in the eighteenth century atlantic world
