how is the simpsons a satirical artwork engaged with important social political and cultural issues in time for the twenty fifth anniversary henry offers the first comprehensive understanding of the show as a satire and explores the ways in which the simpsons participates in the so called culture war debates taking place in american society

many of today s social problems poverty crime racism sexism drug abuse unequal access to quality health care or education threats to the environment over population can seem intractable james a crone s how can we solve our social problems third edition is designed to give students studying these types of social problems a sense of hope unlike the standard survey texts that focus heavily on the causes and consequences of problems this book is devoted to analyzing possible solutions it maintains a sense of sociological objectivity throughout and without moralizing describes what could be done in america and on a global scale through government policies private sector initiatives and

the collective actions of citizens to address even our most pervasive social problems

the theoretical world of entrepreneurship contains the first and most comprehensive examination of more than 250 theories applicable to the study of entrepreneurship it includes a theoretical examination of current social and economic controversies that impact entrepreneurs following in weber s tradition it also compares the doctrines of 16 christian denominations and nine world religions which offer different conceptual windows for understanding entrepreneurs

in miseducating americans richard f hamilton examines accounts of american history appearing in textbooks and popular accounts and compares these with the reports contained in scholarly monographs the task to determine how certain myths and misconstructions became accepted as recorded history hamilton provides much needed correction of those misleading accounts was america historically the land of the free not if you take into account slavery discrimination and post civil war segregation policies was america in the late nineteenth century truly expansionist as american textbooks imply or did it actually capitalize on unexpected political and economic opportunities like russia s desire to rid itself of alaska was the acquisition of the philippines a zealous profit seeking effort aiming for the china market or the fortuitous consequences of a move against spain during the spanish american war miseducating americans debunks many commonly accepted explanations of historical facts it contends that many accounts are oversimplifications and some are one sided depictions of virtue hamilton traces the sources of these misconstructions which mostly come from history textbooks written by authors aiming for popular audiences he then offers explanations as to how and why the inaccuracies have been repeated and passed on

invitation to the sociology of international law aims to cast light on the under explored sociological dimension of international law the book emphasizes that international legal rules are profoundly embedded in diverse social factors and processes such as norms identity and collective memory thus international law often reflects and affects societal factors and processes in state societies and in the international community the book exposes some central tenets of the sociological perspective and its core theoretical approaches and presents a sociological analysis of several significant topics in present day international law the volume surveys subjects such as compliance international economic law legal fragmentation law making and the impartiality of adjudicators and reveals that a sociological analysis of

international law enriches our understanding of social factors involved in the formation evolution and implementation of the law such analysis may not only explain past and present trends in international law but also bears significant implications for the interpretation of existing legal provisions as well as suggesting better legal mechanisms for coping with contemporary challenges in light of the underlying interrelationships between international law and other social factors this book invites international law specialists to analyse international legal rules in their wider social context and to incorporate sociological tools into mainstream international law scholarship

a reader friendly overview of leading theoretical approaches to international law for students scholars and practitioners
