este volumen colectivo ofrece múltiples propuestas didácticas para introducir la literatura hispanoamericana en el aula de manera innovadora si algo unifica las contribuciones a este libro es que pretenden dar cabida a obras de escritores y escritoras del otro lado del atlántico en cada una de las etapas educativas y para ello reflexionan sobre el lugar que ocupa la literatura hispanoamericana en el currículo y la necesidad de revisar los presupuestos para diseñar un recorrido curricular que ponga a disposición de los estudiantes un conjunto de obras y herramientas de análisis que les ayuden a vislumbrar el carácter transatlántico de la literatura

in his now classic voices of collective remembering james v wertsch 2002 examines the extent to which certain narrative themes are embedded in the way the collective past is understood and national communities are imagined in this work wertsch coined the term schematic narrative templates to refer to basic plots such as the triumph over alien forces or quest for freedom that are recurrently used setting a national theme for the past present and future whereas specific narratives are about particular events dates settings and actors schematic narrative templates refer to more abstract structures grounded in the same basic plot from which multiple specific accounts of the past can be generated as dominant and

naturalised narrative structures schematic narrative templates are typically used without being noticed and are thus extremely conservative impervious to evidence and resistant to change the concept of schematic narrative templates is much needed today especially considering the rise of nationalism and extreme right populism political movements that tend to tap into national narratives naturalised and accepted by large swathes of society the present volume comprises empirical and theoretical contributions to the concept of schematic narrative templates by scholars of different disciplines historiography psychology education and political science and from the vantage point of different cultural and social practices of remembering viz school history teaching political discourses rituals museums the use of images maps etc in different countries the volume s main goal is to provide a transdisciplinary debate around the concept of schematic narrative templates focusing on how narratives change as well as perpetuate at times when nationalist discourses seem to be on the rise this book will be relevant to anyone interested in history history teaching nationalism collective memory and the wider social debate on how to critically reflect on the past
