a specialist text of benchmark and commissioned articles on the management of financial institutions

the last 35 years have been dramatic for the financial services industry in the 1990s and 2000s boundaries
between the traditional industry sectors such as commercial banking and investment banking broke down
and competition became increasingly global in nature many forces contributed to this breakdown in
interindustry and intercountry barriers including financial innovation technology taxation and regulation
then in 2008 09 the financial services industry experienced the worst financial crisis since the great
depression even into the mid 2010s the u s and world economies had not recovered from this crisis it is in
this context that this book is written although the traditional nature of each sector s product activity is
analyzed a greater emphasis is placed on new areas of activities such as asset securitization offbalance sheet
banking international banking and on changes occurring as a result of the financial crisis when the first
edition of this text was released in 1994 it was the first to analyze modern financial institutions
management from a risk perspective thus the title financial institutions management a modern perspective

at that time traditional texts presented an overview of the industry sector by sector concentrating on balance sheet presentations and overlooking management decision making and risk management over the last 20 years other texts have followed this change such that a risk management approach to analyzing modern financial institutions is now well accepted thus the title financial institutions management a risk management approach the tenth edition of this text takes the same innovative approach taken in the first nine editions and focuses on managing return and risk in modern financial institutions financial institutions management's central theme is that the risks faced by financial managers and the methods and markets through which these risks are managed are similar whether an institution is chartered as a commercial bank a savings bank an investment bank or an insurance company

providing a broad perspective on the topic this text recognizes that various financial service firms are evolving towards a single industry it examines decisions for all types of financial institutions and emphasizes the global aspects of operating a financial institution

this dynamic text allows learners to analyze and apply theory to managing performance for financial institutions it is up to date including new types of financial institutions and the evolving nature of the financial services industry not only does this text include risk management of financial institutions it includes managing and analyzing different types of financial institutions additionally this text provides the necessary institutional detail that learners need to know to be successful in the management of financial services firms numerous applied cases are included so learners can better understand how the concepts are applied targeted at the mba corporate finance course this book can also be used for both a banking course and financial institution management course
