o thy god will give thee eternity for the price of labor leonardo da vinci this quote is attributed to leonardo da vinci artist greg ridley jr often cited it and used it as his mantra it became his legacy for the hire of a 30 000 grant greg s masterpiece in copper repousse now dons the third floor grand reading room of the ben west public library in downtown nashville tennessee the work took two years to complete but culminates a lifetime of study of period forms and art making it has given greg ridley a place in artistic eternity for the price

of labor

greg dameron doesn t remember his family back in lost haven iowa separated from them at a young age greg is emotionally torn as he flies back to the midwest after the sudden news of his mother s death upon his arrival in lost haven greg is surprised by the power and prestige the dameron name carries in the strange little town some people seem oddly wary of greg while others are outright hostile and he begins to suspect that all is not quite right in this town as dark shadows lurk in the woods behind the dameron home bad paths is the story of an estranged son who returns to an unknown home to reclaim his birthright and redeem his family name filled with intriguing characters who appear to be pleasant midwestern folk it s the story of a family hiding a host of demons below their amiable demeanor as the dark legacy of the damerons begins to come into focus tensions heighten and old secrets turn deadly as greg struggles to overcome his deceptive family heritage he must ultimately choose between doing the right thing and saving his own life

this collection of 100 short very short plays from the neo futurists acclaimed cult hit too much light makes the baby go blind was originally published by chicago plays in 1993 the show presents 30 plays in 60 minutes its ensemble of writer performers generating between two and 12 new plays each week as dictated by a roll of the dice the material runs the gamut of style tone and topic musical confession agit prop poetic gesture physical comedy puppet theater audience interrogation folk song sex joke and many more the plays are funny moving challenging powerful and occasionally just plain weird there is no fourth wall in too much light makes the baby go blind the show embraces the ideal that theater is created in the connection between audience and performer randomness dynamism speed brevity and planned obsolescence are celebrated and exploited to engage and refresh all participants the plays stand as an entertaining document of the show s output and they are ideal for scene study auditions and competitions

this book collects the proceedings of a series of conferences dedicated to birational geometry of fano varieties held in moscow shanghai and pohang the conferences were focused on the following two related problems existence of kähler einstein metrics on fano varieties degenerations of fano varieties on which two famous conjectures were recently proved the first is the famous borisov alexeev borisov conjecture on the boundedness of fano varieties proved by caucher birkar for which he was awarded the fields medal in 2018 and the second one is the arguably even more famous tian yau donaldson conjecture on the existence of kähler einstein metrics on smooth fano varieties and k stability which was proved by xiuxiong chen sir simon donaldson and song sun the solutions for these longstanding conjectures have opened new directions in birational and kähler geometries these research directions generated new interesting mathematical problems attracting the attention of mathematicians worldwide these conferences brought together top researchers in both fields birational geometry and complex geometry to solve some of these problems and understand the relations between them the result of this activity is collected in this book which contains contributions by sixty nine mathematicians who contributed forty three research and survey papers to this volume many of them were participants of the moscow shanghai pohang conferences while the others helped to expand the research breadth of the volume the diversity of their contributions reflects the vitality of modern algebraic geometry

a next big idea club must read a compelling and accessible new perspective on the modern science of psychology based on one of yale s most popular

courses of all time how does the brain a three pound wrinkly mass give rise to intelligence and conscious experience was freud right that we are all plagued by forbidden sexual desires what is the function of emotions such as disgust gratitude and shame renowned psychologist paul bloom answers these questions and many more in psych his riveting new book about the science of the mind psych is an expert and passionate guide to the most intimate aspects of our nature serving up the equivalent of a serious university course while being funny engaging and full of memorable anecdotes but psych is much more than a comprehensive overview of the field of psychology bloom reveals what psychology can tell us about the most pressing moral and political issues of our time including belief in conspiracy theories the role of genes in explaining human differences and the nature of prejudice and hatred bloom also shows how psychology can give us practical insights into important issues from the treatment of mental illnesses such as depression and anxiety to the best way to lead happy and fulfilling lives psych is an engrossing guide to the most important topic there is it is the story of us
