the importance of stoicism for gilles deleuze s logic of sense and michel foucault s hermeneutics of the subject and the care of the self is well known however few students of either classics or philosophy are aware of the breadth of french and italian receptions of stoicism this book firstly presents this broad field to readers and secondly advances it by renewing dialogues with ancient stoic texts the authors in this volume who combine expertise in continental and hellenistic philosophy challenge our understanding of both modern and ancient concepts arguments

exercises and therapies it conceives of stoicism as a vital strand of philosophy which contributes to the life of contemporary thought flowing through the sustained varied engagement with stoicism by continental thinkers this volume covers jean paul sartre gilles deleuze michel foucault julia kristeva alain badiou Émile bréhier barbara cassin giorgio agamben and pierre hadot stoic sources addressed range from doxography and well known authors like epictetus and seneca to more obscure authorities like musonius rufus and cornutus

the purpose of the volume is to bring forward recent trends of research in hypercomplex analysis the list of contributors includes first rate mathematicians and young researchers working on several different aspects in quaternionic and clifford analysis besides original research papers there are papers providing the state of the art of a specific topic sometimes containing interdisciplinary fields the intended audience includes researchers phd students postgraduate students who are interested in the field and in possible connection between hypercomplex analysis and other disciplines including mathematical analysis mathematical physics algebra

universities find themselves in dynamic change they are confronted with growing expectations from their stakeholders increasing international competition and new technological challenges featuring insights and in depth case studies from leading researchers and university decision makers from around the world this book argues that institutions of higher education in order to be successful have to actively reflect on circumstances visions and strategies to master the future drawing from their experiences across a diverse array of institutions in europe asia and the americas the authors explore the pressures on today's universities and the opportunities for excelling in the contest for resources they discuss operational issues such as strategic management its governance leadership development and entrepreneurial culture and broader concerns such as the roles and responsibilities of universities in promoting technology transfer and economic and social development the result is a resource that not only reveals and analyzes universities from an organizational perspective but presents best practice models and concrete inspiration for management and policymaking

the conferences on applications for computers and operations research in the minerals industry apcom initially focused on the optimization of geostatistics and resource estimation several standard methods used in these fields were presented in the early days of apcom while geostatistics remains an important part information technology has emerged and nowadays apcom not only focuses on geostatistics and resource estimation but has broadened its horizon to information and communication technology ict in the mineral industry mining goes digital is a collection of

90 high quality peer reviewed papers covering recent ict related developments in geostatistics and resource estimation mine planning scheduling and dispatch mine safety and mine operation internet of things robotics emerging technologies synergies from other industries general aspects of digital transformation in mining mining goes digital will be of interest to professionals and academics involved or interested in the above mentioned areas

multi item surveys are frequently used to study scores on latent factors like human values attitudes and behavior such studies often include a comparison between specific groups of individuals either at one or multiple points in time if such latent factor means are to be meaningfully compared the measurement structures including the latent factor and their survey items should be stable across groups and or over time that is invariant recent developments in statistics have provided new analytical tools for assessing measurement invariance mi the aim of this special issue is to provide a forum for a discussion of mi covering some crucial themes 1 ways to assess and deal with measurement non invariance 2 bayesian and irt methods employing the concept of approximate measurement invariance and 3 new or adjusted approaches for testing mi to fit increasingly complex statistical models and specific characteristics of survey data the special issue started with a kick off meeting where all potential contributors shared ideas on potential papers this expert workshop was organized at utrecht university in the netherlands and was funded by the netherlands organization for scientific research nwo veni 451 11 008 after the kick off meeting the authors submitted their papers all of which were reviewed by experts in the field the papers in the ebook are listed in alphabetical order but in the editorial the papers are introduced thematically although it is impossible to cover all areas of relevant research in the field of mi papers in this ebook provide insight on important aspects of measurement invariance we hope that the discussions included in this special issue will stimulate further research on mi and facilitate further discussions to support the understanding of the role of mi in multi item surveys

stress trauma and wellbeing in the legal system presents theory research and scholarship from a variety of social scientific disciplines and offers suggestions for those interested in exploring and improving the wellbeing of those who are voluntarily or involuntarily drawn into the legal system

children their world their education presents the findings and recommendations of the cambridge primary review
