this useful sourcebook contains 12 chapters written by experienced classroom practitioners in hong kong one theme appears constantly in these chapters that in the english language classroom whether at primary secondary or tertiary levels high interest and positive motivation occur through active learning when literary texts literary techniques and literariness are featured in this book full coverage is given to the use of poetry prose and drama in language learning and

teaching at all three levels of the education system the tasks and activities described here have been shown to work with all bands of students this book is ideally suited both for practising teachers and participants in teacher education programmes in hong kong and the rest of s e asia it will be particularly useful for primary and secondary teachers of english wishing to incorporate appropriate and relevant teaching activities so as to meet the goals of the new target oriented english language curriculum

this volume provides a critical roadmap through the major historical sources of legal semiotics as we know them today the history of legal semiotics now at least a century old has never been written a non event itself pregnant with semiotic possibility as a consequence its sources are seldom clearly exposed and as word object and meaning change are sometimes lost they reach from an english translation of the 1916 inaugural lecture of the first chair in legal significs at the amsterdam university via mid 20th century studies on property or contract to equally fascinating essays on contemporary semiotic problems produced by former students of the roberta kevelson semiotics roundtable seminar at penn state university 2012 and 2013 together the materials in this book weave the fabric of semiotics and significs two names for the unfolding of semiotics in law and legal discourse at least until the second half of the 20th century and both of which covered a lawyer s focus on sign and meaning in law the latter is embedded within the cultural imperatives of the civilization that gave these terms meaning and made them an effective tool for the dissection of law its reconstitution as an instrument to be used by the lawyer to advance the interests of her clients and for judges as a means to restructure language as a narrative of law whose power could bend behavior to its strictures legal semiotics has become an indispensible part of the elite lawyer s toolkit and a fundamental approach to analysis of legal texts two previous volumes published in 2011 and 2012 explored the conceptual methodological and epistemological progress in the field of legal semiotics the modern forms of semiotics study and the mechanics of meaning making processes by lawyers yet the great lessons of semiotics requires a focus on the origins of the concepts and frameworks that would become contemporary

legal semiotics its origins as an object of the consciousness of meaning making one whose roots as lessons for the oracular conversations of law are expanded in this volume

the empirical and descriptive strengths of sociolinguistics developed over more than 40 years of research have not been matched by an active engagement with theory yet over this time social theorising has taken important new turns linked in many ways to linguistic and discursive concerns sociolinguistics and social theory is the first book to explore the interface between sociolinguistic analysis and modern social theory the book sets out to reunite sociolinguistics with the concepts and perspectives of several of the most influential modern theorists of society and social action including bakhtin foucault habermas sacks goffman bourdieu and giddens in eleven newly commissioned chapters leading sociolinguists reappraise the theoretical framing of their research reaching out beyond conventional limits the authors propose significant new orientations to key sociolinguistic themes including social motivations for language variation and change language power and authority language and ageing language race and class language planning in substantial introductory and concluding chapters the editors and invited discussants reassess the boundaries of sociolinguistic theory and the priorities of sociolinguistic methods sociolinguistics and social theory encourages students and researchers of sociolinguistics to be more reflexively aware and critical of the social bases of their analyses and invites a reasessment of the place sociolinguistics occupies in the social sciences generally

this volume provides accurate and reliable data from 1 159 common cognates found in 19 dialects from the tai language family originally collected by noted tai linguist the late william j gedney the data are organized into the three branches of

the tai language family the southwestern the central and the northern to facilitate comparisons among the various sound systems within the individual branches and within the tai language family as a whole supplementing the cognates are phonological descriptions of each of the dialects included among the nineteen dialects are siamese white tai black tai shan lue yay saek and dialects found at leiping lungming pingsiang and ningming in china the meticulous attention paid to consonants vowels and tones found in each cognate will allow for further dialect studies for the investigation of questions concerning the tripartite division of the tai language family and for the continuing investigation into the reconstruction of the proto tai language family and its wider genetic relationships
