american history volume 1 surveys the broad sweep of american history from the first native american societies to the end of the reconstruction period following the civil war drawing on a deep range of research and years of classroom teaching experience thomas s kidd offers students an engaging overview of the first half of american history the volume features illuminating stories of people from well known presidents and generals to lesser known men and women who struggled under slavery and other forms of oppression to make their place in american life the role of christianity in america is central in this book americans faith sometimes inspired awakenings and the search for an equitable society but at other times it justified violence and inequality students will come away from american history volume 1 better prepared to grapple with the challenges presented by the history of america s founding the problem of slavery and our

nation's political tradition

this 1893 survey ranks among the most important books about the impact of frontier life on U.S. society. It examines the frontier's role in promoting self-reliance, independence, democracy, immigration, and westward expansion.

provides the key source material, historical and legal, for understanding the relationship of church and state. The controversies surrounding aid to parochial schools, blue laws, school prayer, and birth control programs have been central to the ongoing search for the proper boundary between religious and political authority in America. This concise volume features chronologically organized selections from such official documents as colonial charters, court opinions, and legislation, along with incisive twentieth-century interpretations of the issues. They treat historical figures as diverse as John F. Kennedy, Perry Miller, Reinhold Niebuhr, and Paul Blanshard together with contemporary ones. They illuminate the interrelationships between the legal, political, and religious structures of American society. We encounter controversies every day that concern school vouchers, prayer in schools and stadiums, religious symbols in public spaces, and tax support for faith-based social initiatives, as well as arguments among advocates of pro-choice and pro-life positions. These and other issues are at the center of an ongoing search for a means to delineate the interactions among religious and political authorities, initially in the United States but increasingly in the rest of the world. As well, this concise volume presents chronologically organized chapters that include selections from documents like colonial charters, opinions of the Supreme Court, and salient legislation, along with contemporary commentary and incisive interpretations of the issues by modern scholars. Figures as divergent as John Winthrop, John F. Kennedy, and Sandra Day O'Connor speak from these pages as directly as Paul Blanshard, Reinhold Niebuhr, John Courtney Murray, and Robert Bellah. *Church and State in American History* addresses the difficult relationships among the political and religious structures of our society and the emergence of an American solution to the church-state problem.

this three-volume encyclopedia on the history of American food and beverages serves as an ideal companion resource for social studies and American history courses, covering topics ranging from early American Indian foods to mandatory nutrition information at fast-food restaurants. The expression "you are what you eat" certainly applies to Americans not just in terms of our physical health but also in the myriad ways that our taste preferences, eating habits, and food culture are intrinsically tied to our society and history. This standout reference work comprises two volumes containing more than 600 alphabetically arranged historical entries on American foods and beverages, as well as dozens of historical recipes for traditional American foods, and a third volume of more than 120 primary source documents. Never before has there been a reference work that coalesces this diverse range of information into a single set. The entries in this set provide information that will transform any American history research project into an engaging learning experience. Examples include explanations of how tuna fish became a staple food product for Americans, how the canning industry emerged from the Civil War, the difference between Americans and people of other countries in terms of what percentage of their income is spent on food and beverages, and how taxation on beverages like tea, rum, and whisky set off important

political rebellions in u s history

before this book first appeared in 1963 most historians wrote as if the continental expansion of the united states were inevitable what is most impressive henry steele commager and richard morris declared in 1956 is the ease the simplicity and seeming inevitability of the whole process the notion of inevitability however is perhaps only a secular variation on the theme of the expansionist editor john l o sullivan who in 1845 coined one of the most famous phrases in american history when he wrote of our manifest destiny to overspread the continent allotted by providence for the free development of our yearly multiplying millions frederick merk rejected inevitability in favor of a more contingent interpretation of american expansionism in the 1840s as his student henry may later recalled merk loved to get the facts straight from the foreword by john mack faragher
