the topic of urban life and the ambient in smart cities learning cities and future cities is a timely one fitting as it does in the world today by responding in an interdisciplinary way across many areas of research and practice it is essential for researchers to think about and engage with the notion of flourishing in increasingly challenging environments in smarter ways urban life and the ambient in smart cities learning cities and future cities expands upon explorations of urban life to the ambient as such perspectives are offered in this work on urban life in the context of smart cities learning cities and future cities enriched by understandings of the ambient infusing the interactions of people and technologies in 21st century environments with increased awareness at the moment covering topics such as ambient learning smart homes and extended realities this premier reference work is an essential resource for students and educators of higher education architects urban planners instructional designers sociologists city officials community leaders librarians researchers and academicians

modern day and technology rich environments require a reconceptualization of how the nature of technology influences urban areas rethinking the way we apply these technologies will not only alter the way people communicate and interact but it will also alter how individuals learn and explore the world around them ambient urbanities as the intersection between the iot and the iop in smart cities offers insights about the ambient in 21st century smart cities learning cities responsive cities and future cities and highlights the importance of people as critical to the urban fabric of smart cities that are increasingly embedded with pervasive and often invisible technologies the book based on an urban research study explores urbanity from multiple perspectives ranging from the cultural to the geographic while highlighting topics including digital literacies smarter governance and information architectures this book is ideally designed for students educators researchers the business community city government staff and officials urban practitioners and those concerned with contemporary and emerging complex urban challenges and opportunities

topless bars casino gambling needle exchange programs for drug addicts there is no question morality issues remain front and center in urban politics presenting a systematic analysis of culture war issues at the local level Elaine Sharp shows how American cities deal with these ongoing concerns drawing on a sample of ten strategically chosen cities she explains differences in how municipalities respond to controversies surrounding sex business abortion clinics legalized gambling gay rights and drug use by analyzing the relative importance of subculture economics and institutional arrangements in the disputes she points the way toward richer and more complete understanding of how different cities respond differently to these hot button issues far more than a statistical study Morality Politics in American Cities is a collection of fascinating stories of real people grappling with down to earth issues and real life drama richly informative case studies that will captivate students and interested citizens alike Mayors public health directors activists and others speak their minds about the pros and cons of these controversies here are officials in one city confronting the Vatican over funding for abortion services those in another battling a local university over its refusal to provide health benefits to gay partners of faculty members and still others mounting a massive community sponsored attack on topless clubs these stories provide detailed evidence to support classifications needed for comparing cities experience with each of the five morality issues they also corroborate inferences drawn from the comparisons by showing what considerations were in play as local officials grappled with these issues overall the study shows that cultural factors usually dominate policymaking in local politics except when specific economic interests are at stake and also observes that county level governments are more important than previously thought in terms of morality issue decisions as provocative as it is informative Morality Politics in American Cities demonstrates that such issues same sex marriage for example are multidimensional and often difficult to resolve its conclusions however contingent mark an important step in the ongoing process of understanding important differences in approaches to these issues and clearly show how moral conflicts continue to define American politics
