Process Oriented Guided Inquiry Learning (POGIL) Science Inquiry, Argument and Language Chemists' Guide to Effective Teaching It's Elementary *Richard Samuel Moog Brian M. Hand Norbert J. Pienta M. J. Owen*

pogil is a student centered group learning pedagogy based on current learning theory this volume describes pogil s theoretical basis its implementations in diverse environments and evaluation of student outcomes

science inquiry argument and language describes research that has focused on addressing the issue of embedding language practices within science inquiry through the use of the science writing heuristic approach in recent years much attention has been given to two areas of science education scientific argumentation and science literacy the research into scientific argument have adopted different orientations with some focusing on science argument as separate to normal teaching practices that is teaching students about science argument prior to using it in the classroom context while others have focused on embedding science argument as a critical component of the inquiry process the current emphasis on science literacy has emerged because of greater understanding of the role of language in doing and reporting on science science is not viewed as being separate from language and thus there is emerging research emphasis on how best to improving science teaching and learning through a language perspective again the research orientations are parallel to the research on scientific argumentation in that the focus is generally between instruction separate to practice as opposed to embedding language practices within the science classroom context

for courses in methods of teaching chemistry useful for new professors chemical educators or students learning to teach chemistry intended for anyone who teaches chemistry or is learning to teach it this book examines applications of learning theories presenting actual techniques and practices that respected professors have used to implement and achieve

their goals each chapter is written by a chemist who has expertise in the area and who has experience in applying those ideas in their classrooms this book is a part of the prentice hall series in educational innovation for chemistry
