captivating retellings of the origins and histories of ancient star groups include pegasus ursa major pleiades signs of the zodiac and other constellations classic sky telescope 58 illustrations

the secret astrology of the bible by michael ledo is a landmark book that will change the way the scholarly community and the general public views the bible history

and myth epic in scope this provocative book explores the connections between religious belief and cosmic theory even as it attempts to explain contradictions and irregularities in the text the bible states ledo was constructed as a living document with much of its text expanded as time went on if readers stripped away this added material they could actually be left with an early bronze age text over a thousand years older than what is currently accepted by scholars this text suggests ledo would be a veritable cosmic myth which follows the constellations with stories in a contiguous fashion that combine both history and myth originally sold as on earth as it is in heaven the cosmic roots of the bible
