the recent economic crisis was not just caused by a failure of regulation or economic policy it was a story of the failure of management in a fundamental sense a deeply flawed approach to management that encouraged bankers to pursue opportunities without regard for their long term consequences and to put

their own interests ahead of those of their employers and their shareholders and looking more widely there is a creeping disenchantment with management as a profession surveys show that managers generate less respect than lawyers and bankers in the eyes of the general public and there are few if any positive role models for management change isn't just for the rank and file anymore it's coming for you instant access to information and global resources have changed the world we live and work in julian birkinshaw shows that 19th century industrial management won't work in a 21st century fluid workplace read this or prepare to be game changed by someone who has jack hughes ceo topcoder technological and social changes are having an enormous impact on the world of business and on the way companies are managed in this book julian birkinshaw provides a roadmap for making sense of how the world of management is changing and he provides useful advice for companies who want to harness the potential that 2.0 has to offer pv kannan ceo 24/7 customer julian birkinshaw helps us look beyond our legacy management practices and imagine bold new ways of leading managing and organizing filled with mind expanding examples reinventing management is a must read for managers who want to build an organization that's truly fit for the future gary hamel bestselling author of the future of management

it has been said that every generation of historians seeks to rewrite what a previous generation had established as the standard interpretations of the motives and circumstances shaping the fabric of historical events it is not that the facts of history have changed no one will dispute that the battle of waterloo occurred on june 18 1815 or that the allied invasion of europe began on june 6 1944 what each new age of historians are attempting to do is to reinterpret the motives of men and the force of circumstance impacting the direction of past events based on the factual social intellectual and cultural milieu of their own generation by examining the facts of history from a new perspective today's historians hope to reveal some new truth that will not only illuminate the course of history but also validate contemporary values and societal ideals although it is true that tackling the task of developing a new text on logistics and distribution channel management focuses less on schools of philosophical and social analysis and more on the calculus of managing sales campaigns inventory replenishment and income statements the goal of the management scientist like the historian is to merge the facts and figures of the discipline with today's organizational cultural and economic realities hopefully the result will be a new synthesis where a whole new perspective

will break forth exposing new directions and opportunities
