understanding and responding to corruption is a worldwide challenge this book offers a general overview of the nature pattern and differing perspectives on political and economic corruption providing detail and depth the book examines and compares corruption in four countries the united states israel russia and india each country chapter explores how corruption is defined and understood in that country and provides case material illustrating corrupt practice and responses to it the country chapters also cover whistleblowing activities their prevalence importance and impact a comparative analysis presents the most prominent factors contributing to a reduced level of corruption and the factors that lead to whistleblower success

across canada new curriculum initiatives require teachers to introduce students to aboriginal content in response many teachers unfamiliar with aboriginal approaches to learning and teaching are seeking ways to respectfully weave this material into their lessons learning and teaching together introduces teachers of all levels to an indigenist approach to education tanaka recounts how pre service teachers enrolled in a crosscultural course in british columbia immersed themselves in indigenous ways of knowing as they worked alongside indigenous wisdom keepers transforming cedar bark buckskin and wool into a mural that tells stories about the land upon which the course took place they discovered new ways of learning that support not only intellectual but also tactile emotional and spiritual forms of knowledge by sharing how one group of non indigenous teachers learned to privilege indigenous ways of knowing in the classroom tanaka opens a path for teachers to nurture indigenist crosscultural understanding in their own classrooms

this study presents a critique of social constructionist identity politics which is distinguished from specific identity based political positions from within and with social constructionist commitments gupta examines the institutionalization of social constructionist identity politics in literary studies considering the notions of canonicity

psychology is of interest to academics from many fields as well as to the thousands of academic and clinical psychologists and general public who can't help but be interested in learning more about why humans think and behave as they do this award winning twelve volume reference covers every aspect of the ever fascinating discipline of psychology and represents the most current knowledge in the field this ten year revision now covers discoveries based in neuroscience clinical psychology's new interest in evidence based practice and mindfulness and new findings in social developmental and forensic psychology

this book reflects the considerable appeal of the anthropocene and the way it stimulates new discussions and ideas for reimagining sustainability and its place in education in these precarious times the authors explore these new imaginings for sustainability using varying theoretical perspectives in order to consider innovative ways of engaging with concepts that are now influencing the field of sustainability and education through their theoretical analysis research and field work the authors explore novel approaches to designing sustainability and sustainability education these approaches although diverse in focus all highlight the complex interdependencies of the human and more than human world and by unpacking binaries such as human nature nature culture subject object and de-centring the human expose the complexities of an entangled human nature relation that are shaping our understanding of sustainability these messy relations challenge the well versed mantras of anthropocentric exceptionalism in sustainability and sustainability education and offer new questions rather than answers for researchers educators and practitioners to explore as working with new theoretical lenses is not always easy this book also highlights the authors methods for approaching these ideas and imaginings

thesis m a from the year 2007 in the subject american studies literature grade 2.00 university of g ttingen language english abstract let them be sea captains if you will margaret fuller stated in her main work woman in the nineteenth century woman 346 although even nowadays there may be only few female sea captains the quoted statement would hardly provoke anyone at least not someone in our

contemporary western culture however when regarded in its historical context two questions arise firstly what underlying gender concept encouraged fuller to make such a statement in a time of excessive gender polarization bomarito vol2 1 a time in which the ideal of domesticity and republican motherhood freedman 25 determined the role of woman and secondly how did antebellum american society react to such statements the first question will be the main issue of part iii the main part of my work i will begin with fuller s general gender concept that involves ideas of androgynity and the degendering davis 182 of language next the major influences on her concept namely those of transcendentalism with special consideration of emerson goethe fourier and swedenborg will be dealt with lastly i will consider how fuller applied her concept to the specific fields outlined in chapter ii that is marriage education and economy i will concentrate on her main work woman in the nineteenth century because fuller describes her gender concept there in most detail whereas her other works such as summer on the lakes do not contribute much additional information that is of special significance for the understanding of her gender concept this is especially true in the case of her memoirs which was heavily edited and censored by emerson and others it rather distorted fuller s reputation as urbanski states 5 therefore i will only occasionally refer to them whenever they provide further information that is relevant to my topic regarding t

mcgraw hill world languages is pleased to announce our collaboration with the northeast conference on the teaching of foreign languages in the publication of their annual conference report commencing with the 2001 report the chapters in beyond the boundaries reflect and comment on the new contexts for language learning that continue to emerge in this country these changes motivated by factors such as changing societal attitude towards language learning globalization of u s economy and increased global awareness include a growing interest in study abroad opportunities community based outreach programs and life long learning beyond the boundaries is ideal for use in teacher education and methods courses or for undergraduate and graduate seminars that deal with issues in language education or language acquisition
