this book offers a unique analysis of bilateral investment treaties bits by developing a new power focused paradigm for understanding the international investment framework the author illustrates why there was no paradoxical behaviour when developing countries agreed to the bit regime and what has spurred their reaction against it now she also examines how attempts to regulate investment at a multilateral level have failed and why the rules of the framework are evolving inspired by the work of susan strange gwynn fills a significant lacuna in our understanding of these issues by demonstrating how power determines the actions of all those involved this holistic reinterpretation of international investment focuses in particular on latin america but has wider implications for the negotiation of new treaties including such controversial

provisions as the transatlantic trade and investment partnership it will appeal to lawyers economists political scientists and scholars of latin america

this book investigates whether a power shift has taken place in the asia pacific region since the end of the cold war by systematically examining the development of power dynamics in asia pacific it challenges the notion that a wealthier and militarily more powerful china is automatically turning the regional tides in its favour with a special emphasis on sino us competition the book explores the alleged linkage between the regional distribution of relevant material and immaterial capabilities national power and the much cited regional power shift the book presents a novel concept for measuring power in international relations by outlining a composite index on aggregated power ciap that includes 55 variables for 44 regional countries and covers a period of twenty years moreover it develops a middle power theory that outlines the significance of middle powers in times of major power shifts by addressing political military and economic cooperation via a structured focused comparison and by applying a comparative historical analysis the book analyses in depth the bilateral relations of six regional middle powers to washington and beijing

downward causation plays a fundamental role in many theories of metaphysics and philosophy of mind it is strictly connected with many topics in philosophy including but not limited to emergence mental causation the nature of causation the nature of causal powers and dispositions laws of nature and the possibility of ontological and epistemic reductions philosophical and scientific perspectives on downward causation brings together experts from different fields including william bechtel stewart clark and tom lancaster carl gillett john heil robin f hendry max kistler stephen mumford and rani lill anjum who delve into classic and unexplored lines of philosophical inquiry related to downward causation it critically assesses the possibility of downward causation given different ontological assumptions and explores the connection between downward causation and the metaphysics of causation and dispositions finally it presents different cases of downward causation in empirical fields such as physics chemistry biology and the neurosciences this volume is both a useful introduction and a collection of original contributions on this fascinating and hotly debated philosophical topic

an original account of contemporary us latin american relations this book utilises neo gramscian and historical materialist approaches to build a novel conceptual framework for analysing us hegemony extending critical theory in new and exciting directions it disaggregates us power into distinct forms structural coercive institutional and ideological to convincingly argue that the united states is remaking its hegemony in the western hemisphere the first decade of the new century saw the ascendancy of leftist and centre left forces in latin america the emergence and consolidation of the new latin left signalled a profound challenge to the long standing hegemony of the united states in the region this book details the ways in which us foreign policy responded defining hegemony as a dialectical relationship patterned by multiple and overlapping forms of power it situates us policy in the context of the post washington consensus making considerable use of confidential diplomatic cables published by wikileaks it examines the interplay of different facets of us hegemony which are inextricably bound up in the neoliberalisation of the region s political economy this book brings clarity to what remains an open and contested process of hegemonic reconstitution and promises to be of interest to scholars working in a number of overlapping subject areas including international relations ir us foreign policy and latin american studies

this book makes a structural analysis of the neoliberal restructuring in the global electricity industry the book shows that the electricity liberalisation in different countries is just a reflection of the same structural trend in the global economy and avoids from both narrow country specific and abstract global approaches by making a structural analysis completed by a case study thus it aims reaching wider conclusions about how global changes in finance and ideology knowledge structures influence domestic energy and economic policy preferences of developing countries the book develops a taxonomy about organising principles around which the electricity industry has been structured historically and globally and reveals drivers of change which influences the current energy transition in the electricity sector combining these aspects the book uses financial and other economic data empirically to shed light on the structural role of global transformation of the electricity markets on the domestic energy policy preferences of the developing countries thus this work will be useful not only for academic purposes but also for practitioners dealing with these issues
