this book offers both an understanding of newspaper reporting and a means for readers to develop their own critical analysis using a wealth of contemporary case studies students are taught how the language of journalism works providing students with an accessible and user friendly guide to analyzing newspapers around the globe

first published in 1987 this book presents a series of case studies that illustrate the structures of national and international news in the press it first summarizes our discourse analytical theory of the processes and structures of news reports as it has been developed in the last five years

accessible and practical overview to help social researchers make the most of information technology in relation to research design and selection management and analysis of research data the book pinpoints current and future trends in computer assisted methods this book is intended for postgraduate and undergraduate social research methods courses and professional social researchers in sociology social policy and administration social psychology and geography particular appeal to courses in computer applications for social scientists and researchers

this book includes high quality research papers presented at the second international conference on human centric smart computing ichcsc 2023 organized by the university of engineering and management jaipur india on 5 6 july 2023 in new delhi india the topics covered in the book are human centric computing hyper connectivity and data science the book presents innovative work by leading academics researchers and experts from industry

the handbook of news analytics in finance is a landmark publication bringing together the latest models and applications of news analytics for asset pricing portfolio construction trading and risk control the content of the hand book is organised to provide a rapid yet comprehensive understanding of this topic chapter 1 sets out an overview of news analytics na with an explanation of the technology and applications the rest of the chapters are presented in four parts part 1 contains an explanation of methods and models which are used to measure and quantify news sentiment in part 2 the relationship between news events and discovery of abnormal returns the elusive alpha is discussed in detail by the leading researchers and industry experts the material in this part also covers potential application of na to trading and fund management part 3 covers the use of quantified news for the purpose of monitoring early diagnostics and risk control part 4 is entirely industry focused it contains insights of experts from leading technology content vendors it also contains a discussion of technologies and finally a compact directory of content vendor and financial analytics companies in the marketplace of na the book draws equally upon the expertise of academics and practitioners who have developed these models and is supported by two major content vendors ravenpack and thomson REUTERS leading providers of news analytics software and machine readable news the book will appeal to decision makers in the banking finance and insurance services industry in particular asset managers quantitative fund managers hedge fund managers algorithmic traders proprietary program trading desks sell side firms brokerage houses risk managers and research departments will benefit from the unique insights into this new and pertinent area of financial modelling

this book focuses on the dialectic interrelation between news and change whereby news is intended as a textual type in its evolutionary and revolutionary development while change is discussed with reference to the form content and structure of such typological variety explored across the centuries largely in the British environment the time spans in the chapters have been distributed according to a historical key moments in the process of news writing changes and extant computerized corpora covering such periods thereby permitting specific linguistic analyses indeed each chapter makes use of a set of corpora specifically devised to

suit the needs of scholars studying the periods under scrutiny the topics discussed and the corpora exploited to analyze them call into question basic methodological issues that are tackled from different perspectives in the book while the epicentre of all research remains the news itself in a continuous process of adjustment and renewal

this critical research collection focuses on eastern and southern africa providing timely and valuable insights and reflections around the changes and stabilities within media ecosystems caused by the novel covid 19 crises

this thesis presents the findings of a linguistic analysis on newspaper reports from three different countries focusing on the different perspectives represented the analysis employed is informed by systemic functional linguistics and utilizes the framework of transitivity analysis which identifies ideational meanings realized by grammatical choices newspaper reports are commonly believed to represent facts in a neutral way however previous studies have pointed out that events are always interpreted by the writers before being represented in texts because of their ability to influence public opinion newspaper reports have been the focus of several studies previous studies on newspaper reports using systemic functional linguistics have considered the relationships between linguistic choices and the representation of events though many studies on ideational meanings in newspaper reports have considered different perspectives realized by linguistic choices few studies have investigated newspaper reports from multiple countries written in more than one language thus this thesis investigates newspaper reports published in australia the united states and japan which include articles written in english and japanese these cross linguistic sets of newspaper reports were written about a specific issue where we can assume that these three countries would maintain different stances the aim of this study is to locate different perspectives expressed by grammatical choices in the newspaper reports and to identify the strategies that the writers employed in expressing their stances in the newspapers based on the framework of transitivity analysis process types and participants were identified in all the main clauses and subordinate clauses in the newspaper reports participants were further categorized with according to their affiliations institutions and their human or non human nature in addition material and verbal processes were further analyzed according to their verb types and the participants who were involved in each type of processes were identified the findings of this analysis revealed linguistic strategies that may not be obvious to the readers yet influence the news reports to reflect the writers perspectives on the events australian reports utilized japanese actors in negative material processes and showed positive inclinations to their anti whaling stance the us news reports featured the anti whaling groups as actors and goals and these choices also seemed to imply their anti whaling stance in contrast the japanese reports featured the japanese government as actors and the japanese officials as sayers and favored their pro whaling stance these findings show that the grammatical choices in newspaper reports played a role to covertly express the writers perspectives toward the events and suggest that the readers could be affected by those linguistic manipulations in their opinion making process if they continue receiving input from one specific source
