originally published grand rapids mich zondervan publishing house c1991

six scholars speak with one voice in this new and engaging yet comprehensive presentation of the seven main traditions in world religion its ten chapters make it an ideal choice for courses in length from one quarter to one semester designed with maximum flexibility in mind each chapter covers the following organization beliefs practices history contemporary perspectives and source readings supporting end of chapter material helps to frame the material and encourage further inquiry expertly written and constructed this text offers unparalleled flexibility for instructors

focuses on the developmental process of religion and spirituality across the human life span this encyclopedia joins a recent trend in research and scholarship aimed at better understanding the similarities and differences between world religions and spiritualities between expressions of the divine and between experiences of the transcendent

that the longstanding antagonism between science and religion is irreconcilable has been taken for granted and in the wake of recent controversies over teaching intelligent design and the ethics of stem cell research the divide seems as unbridgeable as ever in science vs religion elaine howard ecklund investigates this unexamined assumption in the first systematic study of what scientists actually think and feel about religion in the course of her research ecklund surveyed nearly 1 700 scientists and interviewed 275 of them she finds that most of what we believe about the faith lives of elite scientists is wrong nearly 50 percent of them are religious many others are what she calls spiritual entrepreneurs seeking creative ways to work with the tensions between science and faith outside the constraints of traditional religion the book centers around vivid portraits of 10 representative men and women working in the natural and social sciences at top american research universities ecklund s respondents run the gamut from margaret a chemist who teaches a sunday school class to arik a physicist who chose not to believe in god well before he decided to become a scientist only a small minority are actively hostile to religion ecklund reveals how scientists believers and skeptics alike are struggling to engage the increasing number of religious students in their classrooms and argues that many scientists are searching for boundary pioneers to cross the picket lines separating science and religion with broad implications for education science funding and the thorny ethical questions surrounding stem cell research cloning and other cutting edge scientific endeavors science vs religion brings a welcome dose of reality to the science and religion debates

provides an introduction and overview to the phenomenology of religion through describing analysing and evaluating the ideas of key thinkers in the phenomenology of religion this book also examines the thinking of scholars within the dutch british and north american schools of religious phenomenology

religion extended contributes to discussions of aspects of religion that go beyond the epistemology of belief incorporating other states such as understanding emotion knowledge of persons knowledge how as well as practice the author looks to bridge the gap in the study of religion between research of religious beliefs on the one hand and research of religious practices on the other she reconsiders key methodological concepts that traditional philosophy of religion and neighbouring disciplines e g cognitive science of religion psychology of religion and theology take for granted such as religious belief and religious faith the book offers a compelling and provocative reframing of these notions by drawing on cutting edge developments in cognitive science as well as insights from an orthodox christian perspective which shed light on religion in important ways that tend to be neglected presenting a challenge to the received conceptual framework this innovative and thought provoking volume will advance discussions and open new areas of research

designed to introduce general readers to the great diversity of religion that exists today this fascinating and very useful book provides short descriptions of the beliefs and practices of the world religions and the denominational branches of christianity now in paperback

in innumerable discussions and activities dedicated to better understanding and helping

teenagers one aspect of teenage life is curiously overlooked very few such efforts pay serious attention to the role of religion and spirituality in the lives of american adolescents but many teenagers are very involved in religion surveys reveal that 35 attend religious services weekly and another 15 attend at least monthly 60 say that religious faith is important in their lives 40 report that they pray daily 25 say that they have been born again teenagers feel good about the congregations they belong to some say that faith provides them with guidance and resources for knowing how to live well what is going on in the religious and spiritual lives of american teenagers what do they actually believe what religious practices do they engage in do they expect to remain loyal to the faith of their parents or are they abandoning traditional religious institutions in search of a new more authentic spirituality this book attempts to answer these and related questions as definitively as possible it reports the findings of the national study of youth and religion the largest and most detailed such study ever undertaken the nysr conducted a nationwide telephone survey of teens and significant caregivers as well as nearly 300 in depth face to face interviews with a sample of the population that was surveyed the results show that religion and spirituality are indeed very significant in the lives of many american teenagers among many other discoveries they find that teenagers are far more influenced by the religious beliefs and practices of their parents and caregivers than commonly thought they refute the conventional wisdom that teens are spiritual but not religious and they confirm that greater religiosity is significantly associated with more positive adolescent life outcomes this eagerly awaited volume not only provides an unprecedented understanding of adolescent religion and spirituality but because teenagers serve as bellwethers for possible future trends it affords an important and distinctive window through which to observe and assess the current state and future direction of american religion as a whole

now in one volume the ten volumes of the outstanding religious traditions of the world series written by leading experts these individual studies explore the richness and variety of important religions from around the world

this collection addresses as it exemplifies an identity crisis in contemporary philosophy of religion it represents a unique two way dialogue between philosophers of religion and scholars of religion and broaches issues pertaining to the philosophy of religion and the philosophical tradition on the one hand and religious studies theology and the modern academy on the other while each author manages the current challenges in philosophy of religion differently one can nonetheless discern a polyphony of interests surrounding a postcritical postsecular appreciation of religion in part 1 contributors ask how philosophy of religion can accommodate both the strengths and weaknesses of western analytic and continental traditions incorporate developments in ideology critique gender studies and asian philosophies and negotiate the perceived stalemate in philosophy of religion part 2 addresses these questions in terms of a philosophy of religion that is postcolonial in intention and multidisciplinary in orientation and features scholarship from the fields of both religion and theology an underlying theme is the importance of ushering philosophy of religion into a postphenomenological era of religious studies and theology this is a neglected dimension in many laudable discussions about philosophy of religion that this volume hopes to emend

the aim of this book is to make a major contribution to the field of religious studies while at

the same time paying tribute to the work of wilfred smith although the basis of the chapters is provided by smith s themes of faith and tradition and smith s approach to the study of religion this book stands in its own right as a significant addition to both content and method in the global history of religions first published in 1984 it includes contributions by geoffrey parrinder annemarie schimmel george rupp ninian smart and others

mikael stenmark examines four models of rationality and argues for a discussion of rationality that takes into account the function and aim of such human practices as science and religion

for use as a core text for introductory and upper level courses in western religions and introduction to world religions courses can also be used as supplemental reading for individual religion courses living religions western traditions is a highly readable and stimulating survey of the major global religions and new religious movements that originated in the west the social context origins teachers scriptures and historical development of each faith are carefully explored with emphasis on how practitioners themselves understand their traditions evocative illustrations first person interviews of ordinary people and boxes uncovering the spiritual roots of public figures bring this text to life

a signal contribution to the burgeoning field of comparative philosophy of religion the dynamics of religion describes patterns of living faith in major world religions in a way which corrects misperceptions of them as archaic traditions trapped in the past packed with telling examples this book shows how religions provide meaning and guidance for their followers what the fundamental constituents of all religions are including stories symbols solutions to the mystery of evil and more and how religions are dynamic processes that constantly change and adapt over time the author concludes that truth comes not from the dogmatic retelling of any single master story but from the dynamic interplay between stories old and new what is distinctive in each tradition is not any single set of unchanging meanings but the character of the life lived the dynamics of religion is exhilarating and essential reading for anyone interested in the way religion begins structure themselves and develop through time

the set covers all of the world s major religions from christianity and islam to judaism hinduism and buddhism as well as other religious traditions among the documents included in the set are key writings from sacred texts such as the bible koran

a rich collection of essays on uchimura kanzō author religious leader christian evangelist and intellectual of the meiji and taisho eras

religious or spiritual beliefs underpin many controversies and conflicts in the contemporary world written by a range of scholarly contributors this three volume set provides contextual background information and detailed explanations of religious controversies across the globe controversies in contemporary religion education law politics society and spirituality is a three volume set that addresses a wide variety of current religious issues analyzing religion s role in the rise of fundamentalism censorship human rights environmentalism and sustainability sexuality bioethics and other questions of widespread interest providing in depth context and analysis far beyond what s available in the news or online this work will enable readers to understand the nature of and reasons for

controversies in current headlines the first volume covers theoretical and academic debates the second looks at debates in the public square and ethical issues while the third examines specific issues and case studies these volumes bring detailed and careful debate of a range of controversies together in one place including topics not often covered for example how religions promote or hinder social cohesion and peace the relationship of religions to human rights and the intersection of buddhism and violence written by a range of experts that includes both established and emerging scholars the text explains key debates in ways that are accessible and easy to understand for lay readers as well as undergraduate students researching particular issues or global religious trends
