although substantial resources have been expended on suicide research and prevention suicide science remains in its infancy this book brings together an impressive cast to bridge the gap between cognitive research and cognitive behavioral practice relating to suicide

hopelessness has long been identified as one of the strongest psychological predictors of suicidality however the construct of hopelessness is diffuse and measurement of hopelessness as a marker of suicidality is constrained by this limitation recent advances in cognitive theory beck 1996 and cognitive behavioral theory as specifically related to suicide rudd joiner rajab 2001 led to the development of a new measure of suicide specific hopelessness the suicide cognitions scale scs rudd 2004 although recent studies have shown the scs to be a valid and reliable measure for use with adults e g rudd et al 2010 the current study is the first to look at the psychometric properties of the measure with a uniquely adolescent population participants included a clinical sample of adolescents ages 13 to 18 either in acute inpatient or a partial hospitalization program n 90 as well as a nonclinical sample n 88 internal consistency of the measure was examined construct and criterion validity were explored utilizing self report measures of depression anxiety hopelessness suicidal ideation suicidal behaviors an implicit association test of suicidality and data obtained from patients medical records an exploratory factor analysis was conducted to evaluate the underlying factor structure

of the measure particularly in comparison with previous findings in adult samples the observed factor structure varied slightly from the factor structure found in previous adult samples the scs demonstrated excellent reliability and validity within the adolescent sample as well as improvement over the beck hopelessness scale in explaining the variance in suicidal thoughts and behaviors differences between adolescents and adults in suicide specific hopelessness the applicability of the measure for this age group and clinical utility are discussed

the evolution of cognitive based therapies for schizophrenia is changing psychiatric treatment for schizophrenia this text describes the state of the art divided into three main sections covering the theoretical background practical applications and research results it integrates the clinical and research experience of groups from around the world the cognitive therapies and treatment approaches discussed attempt to alleviate certain target symptoms of the disorder through selective cognitive behavioural techniques

as the standard reference in the field this edited handbook focuses on how a school psychologist can operate and create change within the educational system instead of focusing solely on the diagnosis and treatment of an individual chapters have been updated and revised to provide a contemporary view of the field
