it has been my lot to have had my name introduced both in conversation and in print more frequently than i find it easy to explain whether i consider the fewness unimportance and limited circulation of my writings or the retirement and distance in which i have lived both from the literary and political world most often it has been connected with some charge which i could not acknowledge or some principle which i had never entertained

Samuel Taylor Coleridge's 1817 work *Biographia Literaria* is an autobiography in discourse loosely structured and non-linear. The work is meditative and contains numerous philosophical essays. Initially criticized as the product of Coleridge's opiate-driven descent into illness, more recent critics have given the work far more credit and recognition. The book is the origin of the well-known critical idea of "willing suspension of disbelief."

the story of biographia literaria begins in a conversation between two friends wordsworth and coleridge both settled in the lake district after their return from germany in 1799 they were debating what form a second edition of the lyrical ballads should take to replace the exhausted edition of 1798 in the course of a walk the idea of replacing the brief advertisement by a critical preface was conceived in the aged memory of wordsworth many years after the idea and indeed the very substance of the preface as he came to write it were all coleridge s i have never cared a straw about the theory he wrote impatiently on the manuscript of barron fields biography of him and the preface was written at the request of mr coleridge out of sheer good nature i recollect the very spot a deserted quarry in the vale of grasmere where he pressed the thing upon me and but for that it would never have been thought of by 1815 of course when he came to write the biographia the preface was wordsworth and the biographia coleridge s reply to wordsworth but the simplification is much too crude it poses and tries to answer two closely connected questions first what relation should the language of poetry bear to that of ordinary life and secondly what relation should the subject of poetry bear to itself the order in which the questions are put look irrational but it is wordsworth s own order and there are good reasons for it the answers of the preface are the real language of men in a state of vivid sensation and the incidents of common life these two questions or rather coleridge s attempt to modify and clarify the old answers to them are together the central theme of the second half of the biographia
