tracing a developing fascination with rhythm's significance, its patterns and its measures across philosophy, psychology, science and the whole range of arts, rhythmical subjects shows how and why attention to rhythm came to serve as connective tissue between fields of inquiry at a time when modern disciplines were still in the process of formation or consolidation. The concentration on rhythm and its cognates largely arose, Laura Marcus demonstrates, from the desire to reclaim or retain human and natural measures in the face of the coming of the machine and the speed of technological innovation. Rhythmical subjects uncovers the disparate routes by which rhythm acquired its newfound ability to link ancient and modern forms of intellectual inquiry and to fathom and reinvigorate temporal articulations of modern subjective life. Among the numerous intellectual and artistic developments set in a new light by this brilliantly wide-ranging book are the long line of philosophical and theoretical writing on rhythm from Nietzsche to Bergson and their twentieth-century interlocutors; psychological explorations of rhythm as the fundamental law of life from Herbert Spencer and Ralph Waldo Emerson to Elsie Fogarty; more experimental engagements with psychology's rhythms from Wilhelm Wundt, Théodule Ribot and Karl Groos to the aesthetic writings of Vernon Lee; the history of prosody; pioneering applications of rhythm studies to social and sexual reform by Havelock Ellis, Marie Stopes, D. H. Lawrence and Mary Austin among others; Lebensreform movements and the contribution of Rudolf Steiner and Emile Jaques Dalcroze; and numerous endeavours in artistic and critical innovation from the small modernist magazines of Bloomsbury and Paris to art salons and dance studios across Britain, continental Europe and America.

A deep history of storytelling as a civic agency recalibrating literature's political role for the twenty-first century. Why did short narrative forms like the novella, fable and fairy tale suddenly emerge around 1800 as genres symptomatic of literature's role in life and society in order to explain their rapid ascent to such importance? Florian Fuchs identifies an essential role of literature, a role traditionally performed within classical civic discourse of storytelling, by looking at new or updated forms of this civic practice in modernity. Fuchs's focus in this groundbreaking book is on the fate of topical speech, on what is exchanged between participants in argument or conversation as opposed to rhetorical speech which emanates from and ensures political authority. He shows how, after the decline of the *ars topica* in the eighteenth century, various forms of literary speech took up the role of topical speech that Aristotle had originally identified. Thus his book outlines a genealogy of various literary short forms from fable, fairy tale and novella to twenty-first-century video storytelling that attempted on both high and low levels of culture to exercise again the social function of topical speech. Some of the specific texts analyzed include the novellas of Theodor Storm and the novella-like *Lettre de cachet*, proverbial fictions of Gustave Flaubert and Gottfried Keller, the fairy tale as rediscovered by Vladimir Propp and Walter Benjamin, the epiphanies of James Joyce and the video narratives of Hito Steyerl.
