Surviving Imperial Intrigues North Korea Policy Japanese Castles in Korea 1592–98 Becoming Vegan Gastric Cancer In The Precision Medicine Era Person Centered Approach to Recovery in Medicine Eroberungen Bulletin of the World Health Organization Krause. Dietoterapia Sangpil Jin Linus Hagström Stephen Turnbull Brenda Davis Vincenzo Canzonieri Luigi Grassi Regina Mühlhäuser World Health Organization L. Kathleen Mahan

in surviving imperial intrigues sangpil jin explores how successful korean neutralization could have radically transformed the balance of power equation in east asia he conducted multilocal archival work analyzing documents from the austro hungarian empire ministry of foreign affairs british foreign office french ministry of foreign affairs german foreign office japanese ministry of foreign affairs russian foreign office russian state naval archive and us state department as well as perusing private papers and newspapers what surfaced in these readings were disparate voices of multiple actors and their agendas concerning korean neutrality and dynamic international relations in modern east asia jin argues that although never implemented korean neutralization had the potential to succeed during the british occupation of kōmundo 1885 1887 he further points out that neutralization has recently resurfaced as a possible option for a unified korean state to preserve its strategic flexibility amidst the us pivot to asia and china s re emergence as a potential hegemon in the region while neutralization is the focal point of the book jin also analyzes korea s complex and layered relations with china japan russia and the united states within the overall framework of sino japanese anglo russian and russo japanese rivalries a periphery state in the contemporary international system korea was forced to navigate through intricate diplomatic relations with major imperial powers jin skillfully directs his academic lens toward understanding the stories behind korea s contentious relations

and the rivalries among the powers the timespan of his study stretching from 1882 to 1907 reflects his unique periodization that offers a groundbreaking view of Korean diplomatic history from a more regional geography paradigm in recent years contemporary South Korea has been learning to reassess its strategic position in the emerging Sino-US bipolarity in the Asia Pacific region this book serves as a historical guide for both specialists and policymakers who require a nuanced grasp of the new era of geopolitical shift likely dominated by the two powers China and the United States that possess a distinct understanding of the norms and structure of the international order

bringing together issues that are highly relevant to contemporary Japanese foreign policy this comprehensive text analyzes the formation of the North Korea policy in the context of great power relations in East Asia

the Japanese invasion and occupation of Korea which lasted from 1592 to 1598 was the only occasion in Japanese history when samurai aggression was turned against a foreign country during the occupation of Korea the Japanese built 25 wajo or castles unlike the castles built in Japan these fortifications were never developed or modernized after the Japanese departure the details of late 16th century castle construction are therefore better preserved than at many other sites written by Stephen Turnbull an expert in the subject this book examines the castles built by the Japanese in Korea as well as the use made of existing Korean fortifications particularly city walls this resulted in curious hybrid fortifications that dominated the landscape until the Japanese were pushed out of the peninsula by a furious onslaught from huge Chinese armies

internationally acclaimed dietitians Brenda Davis and Vesanto Melina specifically designed this fully referenced comprehensive edition to meet the needs of health professionals academic librarians and curriculum developers as well as lay readers with a deep interest in nutrition the authors explore the health benefits of vegan diets compared to other dietary choices explain protein and amino acid requirements at various stages of life describe fats and essential fatty acids and their value in plant-based diets investigate carbohydrate facts and fallacies reveal the truth about wheat gluten and grains pinpoint where to obtain calcium iron zinc and other minerals without animal products clarify the importance of obtaining vitamin B12 and show how to attain optimal nutrition during pregnancy and lactation nutritional guidelines are provided for infants children teens and adults including seniors and a section is devoted on how to achieve and maintain healthy weights and exceptional fitness on a vegan diet numerous tables and graphs illustrate each section a handy graphic of the vegan plate offers a daily plan for healthful eating equally beneficial are the sample menus

designed for people of various caloric needs while much of the emphasis is on the health advantages that vegan diets offer an opening chapter is devoted to the impact of animal agriculture on the environment and the degree of inhumanity that has dominated the industry plant based nutrition truly benefits the entire planet and every bite makes a difference

gastric cancer is one of the most common and potentially lethal gastrointestinal malignancy but it is now at the forefront of modern oncology due to new discoveries in recent years the field of gastric cancer has been transformed by many notable developments in both the diagnostic area and the therapeutic strategies the main aim of the text is to propose a comprehensive state of the art review of this field and will serve as a valuable resource for oncologists pathologists surgeons and researchers with an interest in gastric cancer the first chapters will review the interplay between pathogens and especially h pylori inflammation genomic instability and tumorigenesis secondly an exhaustive overview of the diagnosis of gastric cancer from a clinical endoscopic and pathologic perspectives will be illustrated two specific chapters will deal with tissue and serum biomarkers with an important role in diagnosis as well as prognostic and predictive markers of response to specific therapy a central section of the book will focus on treatment options available today for patients surgery is the cornerstone of treatment for gastric cancer however the prognosis of patients with locally advanced disease is still poor even after curative resection therefore in order to improve the prognosis of patients especially with advanced stage a multimodal strategy is advisable and is thoroughly addressed in the appropriate section with the advent of next generation sequencing and new preclinical model technologies the genomic landscape of gastric cancer has been delineated and molecular characterizations finalized to novel therapeutic targets of each molecular subtype have been identified these advances are making it feasible to integrate clinical and phenotype based diagnostic and therapeutic methods and are described in a dedicated section the text will conclude with chapters focusing on the future direction of gastric cancer research in the precision medicine era an in depth analysis of non coding rnas and their role in gastric cancer the impact of immunomodulation immunotherapy and the perspectives of nano medicine will be finally proposed to the audience a brief review of the existing literature addressing the above mentioned topics will be present in each chapter this text will serve as a useful resource for physicians and researchers dealing with and interested in this challenging malignancy it will provide a concise yet comprehensive summary of the current status of the field that will help guide patient management and stimulate investigative efforts all chapters will be written by experts in their fields and will include the most up to date scientific and clinical information
