in surviving imperial intrigues sangpil jin explores how successful korean neutralization could have radically transformed the balance of power equation in east asia he conducted multilocal archival work analyzing documents from the austro hungarian empire ministry of foreign affairs british foreign office french ministry of foreign affairs german foreign office japanese ministry of foreign affairs russian foreign office russian state naval archive and us state department as well as perusing private papers and newspapers what surfaced in these readings were disparate voices of multiple actors and their agendas concerning korean neutrality and dynamic international relations in modern east asia jin argues that although never implemented korean neutralization had the potential to succeed during the british occupation of k. mundo 1885 1887 he further points out that neutralization has recently resurfaced as a possible option for a unified korean state to preserve its strategic flexibility amidst the us pivot to asia and china s re emergence as a potential hegemon in the region while neutralization is the focal point of the book jin also analyzes korea s complex and layered relations with china japan russia and the united states within the overall framework of sino japanese anglo russian and russo japanese rivalries a periphery state in the contemporary international system korea was forced to navigate through intricate diplomatic relations with major imperial powers jin skillfully directs his academic lens toward understanding the stories behind korea s contentious relations and the rivalries among the powers the timespan of his study stretching from 1882 to 1907 reflects his unique periodization that offers a groundbreaking view of korean diplomatic history from a more regional geography paradigm in recent years contemporary south korea has been learning to reassess its strategic position in the emerging sino us bipolarity in the asia pacific region this book serves as a historical guide for both specialists and policymakers who require a nuanced grasp of the new era of geopolitical shift likely dominated by the two powers china and the united states that possess a distinct understanding of the norms and structure of the international order

bringing together issues that are highly relevant to contemporary japanese foreign policy this comprehensive text analyzes the formation of the north korea policy in the context of great power relations in east asia

the japanese invasion and occupation of korea which lasted from 1592 to 1598 was the only occasion in japanese history when samurai aggression was turned against a foreign country during the occupation of korea the japanese built 25 wajo or castles unlike the castles built in japan these fortifications were never developed or modernized after the japanese departure the details of late 16th century castle construction are therefore better preserved than at many other sites written by stephen turnbull an expert in the subject this book examines the castles built by the japanese in korea as well as the use made of existing korean fortifications particularly city walls this resulted in curious hybrid fortifications that dominated the landscape until the japanese were pushed out of the peninsula by a furious onslaught from huge chinese armies
