i have been thinking about the philosophical issue of truth for more than two decades it is one of several fascinating philosophical issues that motivated me to change my primary re ective interest to philosophy after receiving bs in mathematics in 1982 some serious academic work in this connection started around the late eighties when i translated into chinese a dozen of donald davidson s representative essays on truth and meaning and when i assumed translator for adam morton who gave a series of lectures on the issue in beijing 1988 which was co sponsored by my then institution institute of philosophy chinese academy of social science i have loved the issue both for its own sake as one speci c major issue in the phil ophy of language and metaphysics and for the sake of its significant involvement in many philosophical issues in different subjects of philosophy having been attracted to the analytic approach i was then interested in looking at the issue both from the points of view of classical chinese philosophy and marxist philosophy two major styles or frameworks of doing philosophy during that time in china and from the point of view of contemporary analytic philosophy which was then less recognized in the chinese philosophical circle

the novel evokes the revolutionary atmosphere of barcelona in the shadows of world war i

this book is open access under a cc by nc 2 5 license this book presents the visceral project benchmarks for analysis and retrieval of 3d medical images ct and mri on a large scale which used an innovative cloud based evaluation approach where the image data were stored centrally on a cloud infrastructure and participants placed their programs in virtual machines on the cloud the book presents the points of view of both the organizers of the visceral benchmarks and the participants the book is divided into five parts part i presents the cloud based benchmarking and

evaluation as a service paradigm that the visceral benchmarks used part ii focuses on the datasets of medical images annotated with ground truth created in visceral that continue to be available for research it also covers the practical aspects of obtaining permission to use medical data and manually annotating 3d medical images efficiently and effectively the visceral benchmarks are described in part iii including a presentation and analysis of metrics used in evaluation of medical image analysis and search lastly parts iv and v present reports by some of the participants in the visceral benchmarks with part iv devoted to the anatomy benchmarks and part v to the retrieval benchmark this book has two main audiences the datasets as well as the segmentation and retrieval results are of most interest to medical imaging researchers while escience and computational science experts benefit from the insights into using the evaluation as a service paradigm for evaluation and benchmarking on huge amounts of data

this textbook provides students with the skills and techniques necessary to analyse business case studies from a strategic perspective with career development and impact in mind the book goes beyond simply listing tools instead teaching students how to prepare for a major strategic business case analysis project how to position their analysis on a spectrum from reductionist to holistic approaches how to critically engage with theory and case data as well as how to leverage their work after completion a logical approach is offered taking the reader through the analysis journey from preparing to analyse a case study to conducting the analysis and maximising the impact going forwards a comprehensive analysis task is incorporated which asks the reader to reflect on a range of case data understand the choices of analytical positioning and tool selection and develop an analysis based on this positioning further pedagogical features include reflective practice exercises at the end of chapters allowing the student to self identify areas of strength and weakness as they develop through the process worked examples based on cases reproduced in the book allowing the student to follow the analytical process that the author went through in different analysis modes quotes and analysis insights from former students who have previously conducted a strategic business case analysis aiding reflective practice as case study analysis continues as a core component of teaching across business schools this unique text will help to build key skills in advanced undergraduate postgraduate mba and executive education students conducting strategic business case analysis support material includes powerpoint slides as well as video content
