report of the united states tax court july 1 2015 to december 31 2015 volume 145

this book is an updated history of the american comic book by an industry insider you ll follow the development of comics from the first appearance of the comic book format in the platinum age of the 1930s to the creation of the superhero genre in the golden age to the current period where comics flourish as graphic novels and blockbuster movies along the way you will meet the hustlers hucksters hacks and visionaries who made the american comic book what it is today it s an exciting journey filled with mutants changelings atomized scientists gamma ray accidents and supernaturally empowered heroes and villains who challenge the imagination and spark the secret identities lurking within us

this book is an insider s guide to how the comic book industry works you ll learn how comic book superheroes are created and the deeper meanings they represent you ll follow the development of sequential art storytelling from caveman wall paintings to modern manga and cinematic techniques here you will explore comics in all forms those flimsy pamphlets we call comic books thick graphic novels japanese manga and blockbuster movies featuring epic battles between good and evil but behind it all you ll discover how comics are an intellectual property business the real money found in licensed bedsheets and fast food merchandise heart pounding theme park rides and collectible toys video games and hollywood extravaganza featuring such popular superheroes as spider man superman x men and batman

a comprehensive introduction to the comic arts from the introduction by paul levitz if ever there was a medium characterized by its unexamined self expression it s comics for decades after the medium s birth it was free of organized critical analysis its creators generally disinclined to self analysis or formal documentation the average

reader didn't know who created the comics how or why and except for a uniquely destructive period during America's witch hunting of the 1950s didn't seem to care as the medium has matured however and the creativity of comics began to touch the mainstream of popular culture in many ways curiosity followed leading to journalism and eventually scholarship and so here we are the power of comics is the first introductory textbook for comic art studies courses lending a broader understanding of the medium and its communication potential it provides students with a coherent and comprehensive explanation of comic books and graphic novels including coverage of their history and their communication techniques research into their meanings and effects and an overview of industry practices and fan culture co authors randy duncan and matthew j smith draw on their own years of experience teaching comics studies courses and the scholarly literature across several disciplines to create a text with the following features discussion questions for each chapter activities to engage readers recommended reading suggestions over 150 illustrations bibliography glossary the power of comics deals exclusively with comic books and graphic novels one reason for this focus is that no one text can hope to do justice to both strips and books there is simply too much to cover preference is given to comic books because in their longer form the graphic novel they have the greatest potential for depth and complexity of expression as comic strips shrink in size and become more inane in content comic books are becoming a serious art form

contains profiles of hundreds of the best rapidly growing mid size employers of 100 to 2 500 employees these are highly successful companies located nationwide that are of vital importance to job seekers of all types

embarrassed billionaires tried to keep a lid on this story but it cried out to be told how america s greatest comic book company was driven to the brink of insolvency by warring tycoons and rescued from the abyss by two obscure but wily entrepreneurs in the late 1980s financier ronald perelman worth billions and riding high after his hostile takeover of the cosmetics firm revlon bought marvel entertainment legendary creator of captain america the incredible hulk spider man the x men and other superheroes and he had big plans he not only began churning out more comic books he also acquired sports cards and other subsidiaries impressing wall street so much that after he took the company public marvel s market value ballooned to over 3 billion perelman took advantage of the company s inflated valuation by selling junk bonds and personally pocketing nearly 500 million meanwhile marvel s bank debt rose to more than 600 million and then came the collapse of the comic book and trading card markets enter rival corporate raider carl icahn who sank a fortune into marvel s bonds in an effort to wrest away control of marvel and to beat perelman at his own game as the competing tycoons went head to head ike perlmuter and avi arad two entrepreneurs who ran toy biz a company that depended on marvel superheroes realized that their fate hung in the balance they soon put in motion plans to take control themselves bunkered in the townhouse his

high security manhattan corporate headquarters perelman had marvel declare bankruptcy icahn an avid poker player had to figure out if his foe was bluffing the toy biz entrepreneurs needed to find a way to save the company they loved from ruin and a team of killer lawyers representing the banks was faced with recouping their colossal debt thus in united states bankruptcy court began the comic war as ferocious and outlandish as any of marvel's tales of good vs evil combining meticulous investigative reporting with entertaining storytelling comic wars exposes the actions and motives of two goliath style corporate raiders two innovative davids and some of the world's most prominent banks it is the rollicking true tale of a unique wall street showdown of marvel's surprising emergence from the ashes of bankruptcy and of its triumphant reinvention as the producer of such hit hollywood movies as x men and spider man

long the center of business in the united states the new york city metropolitan area is home to hundreds of the largest and most influential companies in america this guide profiles 750 of the top public and private companies in the metro area providing overviews histories key financial and stock data executives names and more
