biology s focus on inquiry based learning coupled with its precise writing style hallmark art program and integration of text and digital make it the perfect

solution for today's AP biology classroom. Mader's biology program also provides valuable supplemental materials to help aid student success in the AP biology course sold separately. Biology begins with an introductory chapter that helps to familiarize students with the AP biology curriculum by explaining each big idea through the use of thought-provoking examples. This chapter also introduces students to the science practices to students and reviews the process of science. Each unit opener has been written to pinpoint how the chapters in the unit relate to the AP curriculum and the big ideas. While each chapter opener provides the students with essential questions to help guide their reading, the features within the text contain content focused either on one of the AP big ideas or on the nature of science. Includes print student edition.

The Mader Windelspecht Story: The twelfth edition of Biology is a traditional, comprehensive introductory biology textbook with coverage from cell structure and function to the conservation of biodiversity. The book, which centers on the evolution and diversity of organisms, is appropriate for any one- or two-semester biology course. Biology 12th edition is the epitome of Sylvia Mader's expertise. Its concise, precise writing style employs lucid language to present the material as succinctly as possible, enabling students (even non-majors) to master the foundational concepts before coming to class. Before you begin following the themes and thematic feature readings, piece together the three major themes of the text: evolution, nature of science, and biological systems. Students are consistently engaged in these themes, revealing the interconnectedness of the major topics in biology. Sylvia Mader typifies an icon of science education. Her dedication to her students, coupled with her clear, concise writing style, has benefited the education of thousands of students over the past three decades. The integration of the text and digital world has been achieved with the addition of Dr. Michael Windelspecht's facility for the development of digital learning assets. For over ten years, Michael served as the introductory biology coordinator at Appalachian State University, a program that enrolls over 4,500 non-science majors annually. Michael is the lead architect in the design of McGraw Hill's Connect Plus and LearnSmart media content for the Mader series. These assets allow instructors to easily design interactive tutorial materials, enhance presentations in both online and traditional environments, and assess the learning objectives and outcomes of the course.

Mader includes revised coverage of animal behaviour and ecology as well as a wealth of new focus boxes which highlight topics of high interest and relate biology to everyday life. This text is linked to a web site offering extended
