questions about how we know the world and how it appears according to our knowledge have been of significant interest from ancient times up to the present day philosophy and science go hand in hand in order to give answers to these fundamental questions some aspects of these have been turned into philosophical problems which provoke a long lasting and vivid discussion this book provides answers to such philosophical problems on the basis of a sound and clearly presented argumentation it will provoke the interest of a broad reading public across the globe including philosophers scientists university students and inquisitive readers

this book aims at making readers develop a better understanding of electrostatic fields using the form of problems and puzzles summarized as questions hereafter and answers instead of tedious explanations in ordinary textbooks the book is filled with the questions

with unexpected answers and questions often misunderstood or rarely completely understood most of which are original the questions in the book look simple and very easy to answer at a glance nevertheless once students try to solve them they will find that the questions are really tough nuts to crack teachers can also use the questions in the book in their classes not only from an academic or an educational point of view the book is useful also to engineers working in such fields as electrical discharges and their applications high voltage equipment in dc and ac circuits as well as electrostatic devices this is because the book introduces various practical applications related to electrostatic fields the original ideas of the book are based on the following japanese book written by one of author t takuma panorama of electric fields in japanese iee japan 2003 this english version of the book has been thoroughly revised and improved with several new questions added

this is a study of philosophical questions about identity if a ship has all its parts replaced is the resulting ship identical with the original ship it argues that these puzzles remain unsolved because of a genuine indeterminacy of identity

no detailed description available for critique of the psycho physical identity theory

introduces students to the excitement of scientific discoveries and experiences with these hands on activities that are designed to stimulate young minds

this book showcases cutting edge research papers from the 7th international conference on research into design icord 2019 the largest in india in this area written by eminent researchers from across the world on design processes technologies methods and tools and their impact on innovation for supporting design for a connected world the theme of icord 19 has been design for a connected world while design traditionally focused on developing products that worked on their own an emerging trend is to have products with a smart layer that makes them context aware and responsive individually and collectively through collaboration with other physical and digital objects with which these are connected the papers in this volume explore these themes and their key focus is connectivity how do products and their development change in a connected world the volume will be of interest to researchers professionals and entrepreneurs working in the areas on industrial design manufacturing consumer goods and industrial management who are interested in the use of emerging technologies such as iot iiot digital twins i4 0 etc as well as new and emerging methods and tools to design new products systems and services

a surprising and ambitious investigation of language and the varied ways women resist the paradoxes of patriarchy both on and off the page new york times combining the soul

baring confessional of brain on fire and the addictive storytelling of the queen's gambit a renowned puzzle creator's compulsively readable memoir and history of the crossword puzzle as an unexpected site of women's work and feminist protest the indisputable queen of crosswords anna shechtman published her first new york times puzzle at age nineteen and later helped to spearhead the the new yorker's popular crossword section working with a medium often criticized as exclusionary elitist and out of touch anna is one of very few women in the field of puzzle making where she strives to make the everyday diversion more diverse in this fascinating work part memoir part cultural analysis she excavates the hidden history of the crossword and the overlooked women who have been central to its creation and evolution from the crossword craze of the 1920s to the role of digital technology today as she tells the story of her own experience in the crossworld she analyzes the roles assigned to women in american culture the boxes they've been allowed to fill and the ways that they've used puzzles to negotiate the constraints and play of desire under patriarchy the result is an unforgettable and engrossing work of art a loving and revealing homage to one of our most treasured entertaining and ultimately political pastimes
