coverage of the clinton lewinsky saga followed in a long trail of media exposures of the more personal details of the lives of public figures many commentators have

seen stories like this and tv shows like jerry springer s as evidence of a decline in the standards of the mass media this increasing interest in private lives and the falling off of coverage of serious news is often described as tabloidization the essays in this book are the first serious scholarly studies of what is going on and what its implications are reality it turns out is much more complex than some of the laments suggest as the contributors show this is not just a u s problem but is repeated in country after country and it is not certain that the media anywhere are getting more tabloid what is more there is no consensus about whether tabloidization is just dumbing down or whether it is a necessary tactic for the mass media to engage with new audiences who do not have the news habit tabloid tales will be of interest to students and scholars in journalism mass communication political science and cultural and media studies

this book provides a timely and important summary of tabloid journalism in africa which clearly shows how tabloids in the african context play a unique role in the democratization process prior to this book very little was known about how tabloid journalists operate in africa the book first explores the global practice of journalism and then focuses on tabloid journalism finally situating the discussion within the african context as well as concentrating on how tabloid journalism can be seen as part of the broader neo liberal thinking in africa in which democracy and freedom of expression is promoted it also looks at how tabloid journalism practice has been met with resistance from the alliance of forces chama draws on examples from across the continent looking at success stories and struggles within the sometime infotainment genre tabloid journalism in africa concludes that even though challenges exist there is a strong case to suggest that the practice of tabloid journalism is being readily accepted by many people as part of the unique voices of democracy even those which might be shocking yet true

this book is the first to tackle the difficult and complex politics of transition in zimbabwe with deep historical analysis its focus is on a very problematic political culture that is proving very hard to transcend at the center of this culture is an unstable but resilient nationalist military alliance crafted during the anti colonial liberation struggle in the 1970s inevitably violence misogyny and masculinity are constitutive of the political culture economically speaking the culture is that of a bureaucratic parasitic primitive accumulation and corruption which include invasion and emptying of state coffers by a self styled chimurenga aristocracy however this chimurenga aristocracy is not cohesive as the politics that led to robert mugabe s ousting from power was preceded by dirty and protracted internal factionalism

at the center of the factional politics was the first family robert mugabe and his wife grace mugabe this book offers a multidisciplinary examination of the complex contemporary politics in zimbabwe taking seriously such issues as gender misogyny militarism violence media identity modes of accumulation the ethnicization of politics attempts to open lines of credit and fdi national healing and the national question as key variables not only of a complete political culture but also of difficult transitional politics

this book is a collection of studies on political interaction in a variety of broadcast namely news and current affairs programs political interviews audience participation programs and radio phone ins following a growing scholarly interest in political discourses dialogic forms of news production and media talk in general a number of internationally acclaimed scholars investigate the discursive and interactional practices that give rise to the arena of public politics in contemporary society chapters span an array of cultural contexts as diverse as sweden greece belgium flanders the u k spain israel the u s a australia and china authors combine an interest in discourse analysis and conversation analysis with different disciplinary orientations such as linguistics media and cultural studies sociology political science and social psychology the book uncovers current trends in media and political discourse and will be of interest to both students and scholars of media discourse and politics
